Puppy's First Car Ride Home

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

His first ride home, held safely on my lap in the back seat while family drives: getting in, watching the window, one little whine, falling asleep and sniffing his new lawn.

TIMELINE

0-5s	Into the back seat
5-10s	Watching the window
10-15s	One little whine
15-20s	Falls asleep
20-25s	New lawn

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 9-week-old male long-coat German Shepherd puppy, sable grey-brown fluffy fur with dark tips, oversized paws and floppy fuzzy ears, wearing a small navy blue collar. 0-5s (Into the back seat): Breeder's gravel driveway, bright overcast midday, a silver hatchback with the back door open. The owner's arms carry the puppy wrapped loosely in a beige towel and sit down in the back seat. The puppy peeks out from the towel, sniffing the grey seat fabric, ears floppy and eyes wide. Sound: gravel crunching, car door, tiny sniffing. 5-10s (Watching the window): Back seat of a moving car, soft daylight through the side windows, grey fabric seats. The puppy lies on the owner's lap on the towel, held gently with both hands, while a family member drives up front out of focus. The puppy watches the trees pass outside the window, his tiny nose twitching. Sound: road hum, turn signal ticking, owner says "it's okay, we're going home". 10-15s (One little whine): Back seat of the car, overcast daylight from the window. The puppy lets out a small whine and wiggles on the towel, and the owner's hand cups his chest and strokes his fluffy head. He calms down, licks the owner's thumb and rests his chin on the owner's knee. Sound: small whine, road hum, owner hushing softly. 15-20s (Falls asleep): Back seat of the moving car, flat grey daylight, a seat belt strap across the owner's jeans. The puppy is curled into a fuzzy ball on the towel in the owner's lap, eyes closed, his oversized paws twitching a little as he dreams. The owner's hand rests lightly on his back. Sound: steady road hum, tiny puppy snore. 20-25s (New lawn): Our concrete driveway at home, cloudy afternoon, a small front lawn and potted plants by the door. The owner carries the puppy from the car and sets him down on the grass beside the driveway. The puppy blinks, sniffs the lawn, takes a few wobbly steps and sits down looking around. Sound: car door closing, birds, owner says "welcome home".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Into the back seat

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real 9-week-old male long-coat German Shepherd puppy, sable grey-brown fluffy fur with dark tips, oversized paws and floppy fuzzy ears, wearing a small navy blue collar. Breeder's gravel driveway, bright overcast midday, a silver hatchback with the back door open. The owner's arms carry the puppy wrapped loosely in a beige towel and sit down in the back seat. The puppy peeks out from the towel, sniffing the grey seat fabric, ears floppy and eyes wide. Sound: gravel crunching, car door, tiny sniffing.

Clip 2 | 5-10s | Watching the window

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
