Puppy Tries to Climb the Couch

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Five short tries at the impossible mountain that is our couch: staring up, scrambling, using a floor cushion, a little boost and a well-earned nap on top.

TIMELINE

0-5s	Staring up
5-10s	First scramble
10-15s	Using the cushion
15-20s	A little boost
20-25s	Summit nap

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 9-week-old male long-coat German Shepherd puppy, sable grey-brown fluffy fur with dark tips, oversized paws and floppy fuzzy ears, wearing a small navy blue collar. 0-5s (Staring up): Living room in the evening, warm table lamp light, grey fabric couch, a striped rug on a wooden floor. The camera is the owner's point of view sitting on the couch looking down. The puppy sits on the rug at the base of the couch, tilts his head back and stares up with wide eyes. Sound: TV murmur in the background, tiny whimper. 5-10s (First scramble): Same living room, evening lamp light, grey couch. The puppy puts his front paws on the edge of the seat cushion and pushes with his back legs, his oversized paws scrabbling against the couch fabric. He gets halfway up, slides back down onto the rug and sits, looking surprised. Sound: paws scratching fabric, soft thump, owner laughs. 10-15s (Using the cushion): Living room, warm lamp light, a fallen floor cushion lying beside the couch. The puppy climbs onto the floor cushion, wobbles, then tries again from there with his front paws on the couch edge. Still too short, he lets out a small frustrated whine with his fuzzy ears flopping. Sound: small whine, cushion rustle, owner says "almost". 15-20s (A little boost): Living room in the evening, lamp light, grey couch. The owner's hands reach down, slide under the puppy's chest and back legs and lift him gently up onto the seat cushion. He immediately sniffs the couch, walks along it on wobbly legs and climbs onto the owner's lap. Sound: happy puppy squeak, tags jingling, owner says "there you go". 20-25s (Summit nap): On the grey couch, warm evening lamp light, a knitted throw blanket nearby. The puppy curls up in the owner's lap, rests his chin on the owner's knee, gives a big yawn and falls asleep, his fluffy belly rising and falling and one oversized paw hanging over the edge. Sound: soft puppy snore, TV murmur.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Staring up

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real 9-week-old male long-coat German Shepherd puppy, sable grey-brown fluffy fur with dark tips, oversized paws and floppy fuzzy ears, wearing a small navy blue collar. Living room in the evening, warm table lamp light, grey fabric couch, a striped rug on a wooden floor. The camera is the owner's point of view sitting on the couch looking down. The puppy sits on the rug at the base of the couch, tilts his head back and stares up with wide eyes. Sound: TV murmur in the background, tiny whimper.

Clip 2 | 5-10s | First scramble

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
