Barking at the Garden Statue

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

We put a stone frog in the garden and he is not okay with it: spotting it, a careful approach, barking, the owner's demo and finally making peace with it.

TIMELINE

0-5s	Spotting it
5-10s	Careful approach
10-15s	Barking at it
15-20s	Owner's demo
20-25s	Making peace

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male long-coat German Shepherd with a sable coat of grey-brown fur with black tips, a darker back, fluffy longer fur on the ears, neck, chest and tail, upright ears, wearing a navy blue nylon collar with a small silver tag, natural fluffy coat that is not perfectly groomed. 0-5s (Spotting it): Backyard on a bright cloudy morning, a flower bed with marigolds along a wooden fence, a new grey stone frog statue sitting at its edge. The dog trots across the grass, suddenly stops dead, ears forward, staring at the frog, then lets out one low woof. Sound: birds, one low woof, owner chuckles. 5-10s (Careful approach): Same backyard flower bed, cloudy daylight. The dog creeps toward the stone frog with his legs stretched and his neck extended as far as it goes, sniffing from a distance. When the breeze moves a flower beside it, he jumps back with a startled hop. Sound: sniffing, a startled snort, owner laughs. 10-15s (Barking at it): Backyard lawn near the flower bed, cloudy morning light. The dog stands a few feet from the stone frog and barks at it, front legs braced, fluffy tail held high, the long fur on his neck puffed out, glancing back at the camera between barks. Sound: loud barking, owner says "it's a frog, buddy". 15-20s (Owner's demo): Flower bed by the fence, cloudy daylight. The owner's hand reaches in and pats the top of the stone frog. The dog tilts his head to one side, then the other, steps closer and sniffs the frog carefully with his nose almost touching it. Sound: hand tapping stone, curious sniffing, owner says "see?". 20-25s (Making peace): Backyard flower bed, soft overcast late morning light. The dog lies down on the grass right next to the stone frog, sniffs it one more time, then rests his chin on his paws and ignores it completely, his fluffy tail stretched out on the lawn. Sound: birds, a relaxed sigh, distant lawnmower.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Spotting it

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male long-coat German Shepherd with a sable coat of grey-brown fur with black tips, a darker back, fluffy longer fur on the ears, neck, chest and tail, upright ears, wearing a navy blue nylon collar with a small silver tag, natural fluffy coat that is not perfectly groomed. Backyard on a bright cloudy morning, a flower bed with marigolds along a wooden fence, a new grey stone frog statue sitting at its edge. The dog trots across the grass, suddenly stops dead, ears forward, staring at the frog, then lets out one low woof. Sound: birds, one low woof, owner chuckles.

Clip 2 | 5-10s | Careful approach

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
