Hiding His Chew in the Blanket

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

He gets a new chew and decides it is too precious to eat: taking it, searching for a spot, burying it in the blanket with his nose, checking on it and guarding it.

TIMELINE

0-5s	Getting the chew
5-10s	Searching for a spot
10-15s	Burying it
15-20s	Checking on it
20-25s	Guarding it

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male long-coat German Shepherd with a sable coat of grey-brown fur with black tips, a darker back, fluffy longer fur on the ears, neck, chest and tail, upright ears, wearing a navy blue nylon collar with a small silver tag, natural fluffy coat that is not perfectly groomed. 0-5s (Getting the chew): Kitchen with white cabinets and a grey tile floor, afternoon daylight. The dog sits politely as the owner's hand offers a long brown dog chew stick. He takes it gently from the fingers, holds it in his mouth and trots out of the kitchen. Sound: tags jingling, owner says "gentle, good boy". 5-10s (Searching for a spot): Living room with a wooden floor, afternoon window light, a sofa and a dog bed. The dog walks around the room with the chew in his mouth, stopping by the corner, the sofa and the window, looking around as if none of them are good enough. Sound: claws on wood, soft whine through the chew. 10-15s (Burying it): Living room, afternoon light, a crumpled cream fleece blanket on the dog bed. The dog drops the chew onto the blanket and pushes folds of the blanket over it with his nose, nudging again and again until the chew is completely covered. He steps back and stares at his work. Sound: blanket rustling, nose pushing, owner whispers "very sneaky". 15-20s (Checking on it): Dog bed in the living room, afternoon daylight. The dog lifts a corner of the fleece blanket with his nose, peeks at the chew underneath, then carefully pushes the blanket back over it and looks up at the camera. His fluffy tail swishes slowly against the side of the bed. Sound: soft rustle, quiet room, owner laughing. 20-25s (Guarding it): Living room, late afternoon window light. The dog lies down right on top of the blanket pile with his chin resting over the hidden chew, his fluffy tail curled around the bed, and watches the camera out of the corner of his eye. His ears stay up, listening for anyone coming close. Sound: a satisfied sigh, clock ticking.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Getting the chew

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male long-coat German Shepherd with a sable coat of grey-brown fur with black tips, a darker back, fluffy longer fur on the ears, neck, chest and tail, upright ears, wearing a navy blue nylon collar with a small silver tag, natural fluffy coat that is not perfectly groomed. Kitchen with white cabinets and a grey tile floor, afternoon daylight. The dog sits politely as the owner's hand offers a long brown dog chew stick. He takes it gently from the fingers, holds it in his mouth and trots out of the kitchen. Sound: tags jingling, owner says "gentle, good boy".

Clip 2 | 5-10s | Searching for a spot

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
