Hot Afternoon in the Shade

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

How he handles a hot summer afternoon: resting in the tree shade, fresh water, a damp towel, following the shade to the shed and cooling off on the tile floor inside.

TIMELINE

0-5s	Tree shade
5-10s	Fresh water
10-15s	Damp towel
15-20s	Following the shade
20-25s	Cool tile floor

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male long-coat German Shepherd with a sable coat of grey-brown fur with black tips, a darker back, fluffy longer fur on the ears, neck, chest and tail, upright ears, wearing a navy blue nylon collar with a small silver tag, natural fluffy coat that is not perfectly groomed. 0-5s (Tree shade): Backyard on a hot bright afternoon, harsh sunlight, dry yellowing grass, a big leafy tree casting a dark patch of shade. The dog lies stretched out in the shade on his side, panting with his tongue out, his long fluffy coat spread on the cool ground. Sound: cicadas buzzing, slow panting. 5-10s (Fresh water): Same backyard under the tree, bright hot daylight. The owner's hand sets down a steel bowl of fresh cool water next to the dog. He lifts his head, drinks steadily, water dripping from his chin onto the dry dirt. His fluffy chest fur is damp at the tips afterward. Sound: water pouring, lapping, cicadas. 10-15s (Damp towel): Shady spot under the tree, hot afternoon light all around. The owner's hands spread a damp blue towel on the ground. The dog sniffs it, steps onto it and lies down with his belly flat on the cool towel, letting out a long sigh. Sound: towel flapping, long sigh, owner says "better?". 15-20s (Following the shade): Backyard, harsh afternoon sun, a small wooden shed by the fence. The dog gets up, walks slowly across the sunny grass and flops down in the narrow strip of shadow along the shed wall, panting with his eyes squinting. A few leaves rustle in the hot breeze above him. Sound: cicadas, slow footsteps on dry grass. 20-25s (Cool tile floor): Kitchen inside, bright daylight from the back door, beige tile floor, a fan running in the corner. The dog lies sprawled on the cool tiles, legs stretched out, the fan breeze moving the long fur on his tail as his panting slows. The back door stands open to the bright yard. Sound: fan whirring, soft panting fading.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Tree shade

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male long-coat German Shepherd with a sable coat of grey-brown fur with black tips, a darker back, fluffy longer fur on the ears, neck, chest and tail, upright ears, wearing a navy blue nylon collar with a small silver tag, natural fluffy coat that is not perfectly groomed. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
