5-10s	Petals in his fur
10-15s	Sniffing the basket
15-20s	Snapping at a petal
20-25s	Resting together

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male long-coat German Shepherd with a sable coat of grey-brown fur with black tips, a darker back, fluffy longer fur on the ears, neck, chest and tail, upright ears, wearing a navy blue nylon collar with a small silver tag, natural fluffy coat that is not perfectly groomed. 0-5s (On the blanket): City park on a mild spring morning, soft daylight, rows of cherry trees covered in pale pink blossoms, a red checkered picnic blanket on the grass. The dog sits at the edge of the blanket on a leash, looking around at the trees, ears up. Sound: birds, distant people chatting, light breeze. 5-10s (Petals in his fur): Same park under the cherry trees, soft spring daylight. A breeze shakes loose pink petals that drift down and land on the dog's fluffy back and ears. He stands up and gives a quick shake, petals flying off his coat. Pink blossoms keep drifting down onto the blanket around him. Sound: breeze in the branches, body shake, owner laughs. 10-15s (Sniffing the basket): Picnic blanket under the blossoms, soft daylight, a wicker basket on the blanket. The dog pushes his nose toward the basket and the owner's hand gently guides his face away, then offers him a plain dog biscuit, which he takes gently. He crunches it happily, crumbs falling on the blanket. Sound: basket creaking, crunching, owner says "that's not yours, this is". 15-20s (Snapping at a petal): Park grass beside the blanket, spring daylight, pink cherry trees behind. A single petal drifts down in front of the dog's face and he snaps at it, misses, and watches it land on the grass, then sniffs it. His fluffy tail sweeps the grass as he wags. Sound: soft jaw click, breeze, owner giggles. 20-25s (Resting together): Picnic blanket under the cherry trees, soft late morning daylight, petals scattered on the grass. The dog lies down with his head resting on the owner's leg in jeans, a few pink petals still caught in his fluffy neck fur, eyes slowly closing. The owner's hand rests on his back. Sound: birds, leaves rustling, quiet sigh.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
