Snowy Night Walk Under the Porch Lights

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A quiet walk on a snowy evening: stepping out the front door, the sidewalk under porch lights, snowflakes on his coat, sniffing a snowy hedge and brushing off at home.

TIMELINE

0-5s	Out the door
5-10s	Snowy sidewalk
10-15s	Snow on his coat
15-20s	Snowy hedge
20-25s	Brushing off at home

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male long-coat German Shepherd with a sable coat of grey-brown fur with black tips, a darker back, fluffy longer fur on the ears, neck, chest and tail, upright ears, wearing a navy blue nylon collar with a small silver tag, natural fluffy coat that is not perfectly groomed. 0-5s (Out the door): Front porch at night, warm yellow porch light, snow falling softly, snowy steps and a dark street beyond. The front door opens and the dog steps out on a leash, sniffs the snow on the top step and walks down, leaving paw prints. Flakes catch the porch light as they fall. Sound: door closing, soft snow crunch, quiet night. 5-10s (Snowy sidewalk): Residential sidewalk at night, a thin layer of fresh snow, houses with yellow porch lights and a streetlamp ahead. The dog walks ahead on a loose leash, paws pressing prints into the snow, his fluffy tail swaying. Snowflakes drift down through the streetlamp light, and the street is empty and quiet. Sound: crunching footsteps, distant car on wet road. 10-15s (Snow on his coat): Sidewalk in front of a neighbor's house at night, warm porch light, snow falling. The dog stops and stands still while flakes settle on his fluffy back and ears, then he gives a big shake, snow flying off his coat. Flakes keep falling around him in the warm light. Sound: body shake, tags jingling, owner laughs softly. 15-20s (Snowy hedge): Low hedge along a front yard at night, covered in snow, lit by a nearby porch light. The dog pushes his nose into the snowy hedge, sniffing deeply, and pulls back with snow on his nose and whiskers, then sneezes. He shakes his head and keeps walking. Sound: sniffing, a sneeze, quiet street. 20-25s (Brushing off at home): Back on our front porch at night, yellow porch light, snowy doormat. The owner's gloved hand brushes the snow off the dog's back and head. He wags his tail, shakes once more and looks at the front door. Snowflakes keep falling past the porch light behind him. Sound: glove brushing fur, door handle, owner says "okay, inside".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Out the door

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male long-coat German Shepherd with a sable coat of grey-brown fur with black tips, a darker back, fluffy longer fur on the ears, neck, chest and tail, upright ears, wearing a navy blue nylon collar with a small silver tag, natural fluffy coat that is not perfectly groomed. Front porch at night, warm yellow porch light, snow falling softly, snowy steps and a dark street beyond. The front door opens and the dog steps out on a leash, sniffs the snow on the top step and walks down, leaving paw prints. Flakes catch the porch light as they fall. Sound: door closing, soft snow crunch, quiet night.

Clip 2 | 5-10s | Snowy sidewalk

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male long-coat German Shepherd with a sable coat of grey-brown fur with black tips, a darker back, fluffy longer fur on the ears, neck, chest and tail, upright ears, wearing a navy blue nylon collar with a small silver tag, natural fluffy coat that is not perfectly groomed. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
