Festival Day in a New Bandana

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A family festival day at home and he gets dressed up too: a new bandana, showing it off on the decorated porch, greeting family, his own dog treat and a calm evening rest.

TIMELINE

0-5s	New bandana
5-10s	Showing it off
10-15s	Greeting family
15-20s	His own treat
20-25s	Evening rest

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male long-coat German Shepherd with a sable coat of grey-brown fur with black tips, a darker back, fluffy longer fur on the ears, neck, chest and tail, upright ears, wearing a navy blue nylon collar with a small silver tag, natural fluffy coat that is not perfectly groomed. 0-5s (New bandana): Living room on a bright festival morning, natural daylight, colorful paper decorations on the wall. The dog sits patiently on the rug as the owner's hands tie a red and gold patterned cotton bandana loosely around his neck over his collar. He sniffs the fabric and looks up at the camera. Sound: soft festive music from another room, owner says "so handsome". 5-10s (Showing it off): Front porch decorated with paper streamers and unlit string lights, sunny morning daylight. The dog trots along the porch with his new bandana swaying, fluffy tail wagging, and turns to look back at the camera. The bandana flutters a little in the breeze as he stops by the potted plants near the steps. Sound: streamers rustling in the breeze, tags jingling. 10-15s (Greeting family): Open front door, midday daylight, an aunt in a bright festive outfit crouching at the doorway. The dog walks up calmly and sniffs her hands, wagging, and she gently pats his fluffy head and straightens his bandana. Other family members chat in the background, out of focus. Sound: family chatter, aunt says "look at you!". 15-20s (His own treat): Dining room, midday daylight, plates of festival food set out on a high table well out of reach. The dog sits on the floor and the owner's hand gives him a plain dog biscuit from his own treat jar, which he takes gently. He crunches it happily, crumbs on the floor. Sound: crunching, family chatter, owner says "this one is for you". 20-25s (Evening rest): Front porch in the evening, string lights now lit and a warm porch lamp, dusky blue sky. The dog lies calmly on the doormat in his bandana, chin on his paws, watching the quiet street. Festival music drifts softly from a house far down the road while family laughter comes from inside. Sound: soft distant music, crickets, family laughter inside.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
