Welcome to the German Shepherd Lovers Club

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A warm welcome to the page from our fluffy club president: greeting at the door, wind in his coat, paw on my hand, fetch in the park and a calm evening on the back steps.

TIMELINE

0-5s	Hello at the door
5-10s	Wind in his coat
10-15s	Paw on my hand
15-20s	Fetch in the park
20-25s	Evening on the steps

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male long-coat German Shepherd with a sable coat of grey-brown fur with black tips, a darker back, fluffy longer fur on the ears, neck, chest and tail, upright ears, wearing a navy blue nylon collar with a small silver tag, natural fluffy coat that is not perfectly groomed. 0-5s (Hello at the door): Front entryway in the afternoon, daylight from the open door, a shoe rack and a coat hook. The door opens and the dog rushes up to greet the owner, fluffy tail wagging so hard his whole back end swings, and he presses his head against the owner's legs. Sound: door opening, tags jingling, owner says "hi, buddy". 5-10s (Wind in his coat): Grassy hilltop on a breezy afternoon, overcast sky, open fields below. The dog stands looking out over the view, the wind blowing through the long fluffy fur on his neck, chest and tail, his ears turning to every sound. He sniffs the wind with his nose lifted high. Sound: strong wind, distant birds. 10-15s (Paw on my hand): Living room in the evening, warm table lamp light, a brown sofa. The owner's hand rests on the sofa cushion and the dog, sitting on the floor, lifts his front paw and places it gently on top of the owner's hand, looking up at the camera. Sound: quiet room, owner whispers "I know, I know". 15-20s (Fetch in the park): Open park field on a cloudy afternoon, patchy grass and trees at the edge. The owner's hand throws a worn red ball and the dog runs after it, his long coat bouncing, then brings it back and drops it at the owner's feet, panting. Sound: paws pounding grass, panting, owner says "good boy". 20-25s (Evening on the steps): Back steps of the house at dusk, soft fading daylight, a quiet backyard. The dog sits next to the owner on the steps and leans in, and the owner's arm wraps around his fluffy shoulders as he rests his head against the owner's chest. Sound: crickets, soft sigh, owner says "welcome to the club".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
