0-5s	Hiding from bath
5-10s	Wet in the tub
10-15s	Soapy scrub
15-20s	The big shake
20-25s	Post-bath zoomies

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. 0-5s (Hiding from bath): Living room, mid-afternoon, soft daylight from a side window, worn grey couch and beige carpet. The dog lies flat on the floor behind the end of the couch with only its head and ears showing. The owner's hand comes into frame holding a folded blue towel, and the dog lowers its chin to the carpet and stays very still. Sound: water running in another room, owner says "come on, it's bath time". 5-10s (Wet in the tub): Small bathroom, white tile walls, plain daylight from a small frosted window. The dog stands in a white bathtub with its ears tilted back, looking up at the camera. The owner's hand pours warm water from a plastic cup over its back, and the fur turns dark and flat as water runs down its legs. Sound: water splashing into the tub, a small whine, owner says "almost done, buddy". 10-15s (Soapy scrub): Same small bathroom, daylight from the frosted window, white tub. The owner's hands rub white foam into the dog's neck and shoulders. The dog stands still with its head low and lets out a long sigh, wet fur clumped together and suds dripping into the shallow water around its paws. Sound: squishy scrubbing, dripping water, the dog's heavy sigh. 15-20s (The big shake): Same bathroom, frosted window daylight. The dog, still soaking wet in the tub, plants its feet and shakes its whole body hard from head to tail. Water sprays onto the tile walls, the shower curtain and the camera, leaving a few drops on the view. The owner flinches back a little. Sound: loud flapping shake, water hitting tiles, owner laughing "no, no, no!". 20-25s (Post-bath zoomies): Living room, afternoon daylight from the window, beige carpet and grey couch. The damp, fluffy dog races in a fast loop around the coffee table, then drops down and rubs its face and back along the carpet, legs kicking, before hopping up and shaking again. Sound: thumping paws, tags jingling, owner says "there he goes".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
