My German Shepherd Swimming in the Lake

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

An afternoon at the lake: running to the end of the dock, jumping in, swimming for a stick, bringing it back to shore, and rolling in the grass to dry off.

TIMELINE

0-5s	End of the dock
5-10s	Jumping in
10-15s	Swimming for the stick
15-20s	Back to shore
20-25s	Rolling in the grass

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. 0-5s (End of the dock): Weathered wooden dock on a calm lake, late afternoon, partly cloudy sky, trees along the far shore. The dog trots to the very end of the dock and stops at the edge, looking down at the water, then back at the camera, tail wagging. Sound: dock boards creaking, water lapping, owner says "go on". 5-10s (Jumping in): Same dock and lake, late afternoon daylight. The dog crouches a little and jumps off the end of the dock into the water, landing with a big splash, then pops its head up and starts paddling. Ripples spread out across the calm water around it. Sound: big splash, owner cheering "yeah!". 10-15s (Swimming for the stick): Calm lake water close to shore, partly cloudy afternoon light. Only the dog's head and the top of its back show above the water as it paddles steadily toward a floating stick, ears flat and wet, then grabs it in its mouth. Sound: paddling, splashing, birds over the water. 15-20s (Back to shore): Pebbly lake shore, late afternoon daylight. The dog walks out of the shallow water carrying the wet stick in its mouth, water streaming off its coat, and drops the stick at the owner's sandals. It shakes its head once, flinging drops from its ears, and looks up waiting for another throw. Sound: water dripping, pebbles crunching, heavy panting. 20-25s (Rolling in the grass): Grassy patch beside the lake, late afternoon, partly cloudy light. The wet dog drops onto the grass and rolls on its back, rubbing its face and shoulders into the grass, legs kicking, then lies still panting. Blades of grass stick all over its damp face and shoulders. Sound: grass rustling, happy grunts, owner laughing.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | End of the dock

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. Weathered wooden dock on a calm lake, late afternoon, partly cloudy sky, trees along the far shore. The dog trots to the very end of the dock and stops at the edge, looking down at the water, then back at the camera, tail wagging. Sound: dock boards creaking, water lapping, owner says "go on".

Clip 2 | 5-10s | Jumping in

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
