My German Shepherd Guarding the House

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A day on duty: watching from the front window, barking at something outside, checking the front door, patrolling the fence line, and finally relaxing on the porch.

TIMELINE

0-5s	Window watch
5-10s	Alert bark
10-15s	Door check
15-20s	Fence patrol
20-25s	Off duty

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. 0-5s (Window watch): Living room, overcast morning, grey daylight through a front window with sheer curtains. The dog sits on the couch facing the window with its front paws on the cushion, ears straight up, head turning slowly as it watches the street outside. Sound: quiet house, a car passing outside. 5-10s (Alert bark): Same front window, overcast morning light. The dog suddenly stands up straight, ears forward, staring at something outside out of frame, and lets out two deep barks, tail held high and stiff. The sheer curtain moves slightly as its nose bumps the window glass, leaving a small smudge. Sound: two deep barks, owner saying "it's just the mailman". 10-15s (Door check): Front hallway, grey morning daylight from a small window, shoes on a mat. The dog trots to the front door and sniffs along the gap at the bottom, ears forward, then stands still listening with its head tilted. Its tail is held still and level while it listens. Sound: deep sniffing, a quiet low huff. 15-20s (Fence patrol): Backyard, overcast midday light, a tall wooden fence and uneven grass. The dog walks along the fence line with its nose down, stopping at a gap between two boards to sniff carefully before moving on. A garden hose lies coiled near the back steps and a few dandelions dot the lawn. Sound: birds, grass rustling, a neighbor's dog barking far away. 20-25s (Off duty): Front porch, late afternoon, soft overcast daylight, a worn welcome mat with no lettering visible. The dog lies on the mat with its head up watching the street, then gives a big wide yawn and lowers its chin onto its paws. Sound: big squeaky yawn, wind chimes, owner says "long day?".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Window watch

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. Living room, overcast morning, grey daylight through a front window with sheer curtains. The dog sits on the couch facing the window with its front paws on the cushion, ears straight up, head turning slowly as it watches the street outside. Sound: quiet house, a car passing outside.

Clip 2 | 5-10s | Alert bark

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. The dog lies on the mat with its head up watching the street, then gives a big wide yawn and lowers its chin onto its paws. Sound: big squeaky yawn, wind chimes, owner says "long day?".

FACEBOOK CAPTION

Head of security. Works for kibble.
The mailman is still public enemy number one.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
