My German Shepherd Waiting for Me to Come Home

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Filmed by my partner while I was at work: watching the window, hearing my car, rushing to the door, the happy reunion, and bringing me his favorite toy.

TIMELINE

0-5s	Watching the window
5-10s	Hears the car
10-15s	Rush to the door
15-20s	The reunion
20-25s	Toy delivery

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. 0-5s (Watching the window): Living room, late afternoon, grey daylight through the front window. The dog lies on the back cushions of the couch with its chin resting on the top, staring out the window at the empty driveway, eyes moving but body still. Sound: quiet house, a sigh, partner whispering "waiting for dad?". 5-10s (Hears the car): Same couch and window, late afternoon light. The dog's head pops up, ears shoot forward, and it tilts its head to one side, then the other, listening hard, tail starting to wag against the cushions. It stands up on the cushions and presses its nose close to the window glass. Sound: a car pulling into the driveway outside, tail thumping. 10-15s (Rush to the door): Front hallway, late afternoon daylight from a small window by the door. The dog jumps off the couch and runs to the front door, whining, tail swinging so hard its whole back end wiggles, nose pressed to the door. A pair of sneakers by the door gets knocked sideways. Sound: claws scrambling on the floor, excited whining. 15-20s (The reunion): Same hallway, the front door opening and outdoor daylight coming in. The owner's legs in jeans and work boots step inside. The dog circles the owner's legs, leans its whole body against them and whines, tail wagging nonstop. Its front paws dance on the floor without jumping up. Sound: door opening, whining, owner laughing "hi buddy, I missed you too". 20-25s (Toy delivery): Same hallway, late afternoon daylight. The owner crouches down, only knees and hands visible. The dog runs off and comes right back with a worn stuffed toy in its mouth and pushes it into the owner's hands, wiggling. The toy is missing one ear and is a little soggy. Sound: owner saying "you brought me a present?", happy panting.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Watching the window

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. Living room, late afternoon, grey daylight through the front window. The dog lies on the back cushions of the couch with its chin resting on the top, staring out the window at the empty driveway, eyes moving but body still. Sound: quiet house, a sigh, partner whispering "waiting for dad?".

Clip 2 | 5-10s | Hears the car

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
