Leaf Pile? What Leaf Pile?

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A crisp fall afternoon in the backyard: raking, the dog diving into the leaf pile, rolling in leaves, chasing a ball through them, and resting with leaves stuck in its fur.

TIMELINE

0-5s	Watching the raking
5-10s	Leaf pile dive
10-15s	Rolling in leaves
15-20s	Ball in the leaves
20-25s	Leafy rest

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. 0-5s (Watching the raking): Backyard in fall, cool cloudy afternoon, patchy lawn covered in red and yellow leaves, wooden fence, bare maple tree. The owner's legs and a green plastic rake are in frame, pulling leaves into a pile. The dog stands nearby watching the rake, head tilting, tail slowly wagging. Sound: rake scraping, leaves rustling, wind, distant dog barking. 5-10s (Leaf pile dive): Same backyard, overcast afternoon light. A knee-high pile of dry brown and orange leaves sits on the lawn. The dog trots up, sniffs the pile, then bounds straight into the middle of it, scattering leaves in every direction, and stands in the pile with leaves on its back. Sound: loud crunching leaves, owner groaning "oh come on" then laughing. 10-15s (Rolling in leaves): Backyard, grey fall sky, scattered leaves on uneven grass near the fence. The dog drops onto its back in the leaves and wiggles side to side, legs paddling in the air, then flips back over onto its belly and shakes its head, a leaf stuck to its ear. Sound: leaves crackling, happy grunts, collar tag jingling. 15-20s (Ball in the leaves): Backyard, cloudy afternoon, leaves covering most of the lawn. The owner's hand tosses a worn orange rubber ball into the leaves. The dog runs after it, pushes its nose through the leaves to find it, grabs it and trots back toward the camera with leaves falling off its chest. Sound: leaves rustling, sniffing, panting, owner says "find it". 20-25s (Leafy rest): Back porch steps, late afternoon, fading grey daylight, concrete steps with a doormat. The dog lies on the doormat panting, small pieces of dry leaves stuck in its coat. The owner's hand picks one leaf off its back and the dog looks up at the camera. Sound: panting, wind in the trees, owner chuckling "you are a mess".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Watching the raking

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. Backyard in fall, cool cloudy afternoon, patchy lawn covered in red and yellow leaves, wooden fence, bare maple tree. The owner's legs and a green plastic rake are in frame, pulling leaves into a pile. The dog stands nearby watching the rake, head tilting, tail slowly wagging. Sound: rake scraping, leaves rustling, wind, distant dog barking.

Clip 2 | 5-10s | Leaf pile dive

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
