Road Trip Rest Stop Break

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A long road trip day: riding in the back seat, stretching legs at a rest stop, sniffing the grass, a water break by the car, and hopping back in for the next leg.

TIMELINE

0-5s	Back seat rider
5-10s	Stretching out
10-15s	Sniffing the grass
15-20s	Water break
20-25s	Back in the car

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. 0-5s (Back seat rider): Inside a car on the highway, midday, bright daylight through the windows, grey fabric back seat covered with an old blanket. The dog sits in the back seat wearing a seat belt harness, looking out the side window, ears moving with the wind. Sound: road noise, engine hum, turn signal clicking. 5-10s (Stretching out): Highway rest stop parking lot, midday, sunny with scattered clouds, asphalt with faded parking lines. The dog hops out of the open back door on a leash, then does a long full-body stretch, front legs out, back end up, followed by a shake. Sound: trucks passing far away, tags jingling, owner says "big stretch". 10-15s (Sniffing the grass): Grassy pet area at the rest stop, midday, sunny, short mowed grass and a few small trees, a trash bin nearby. The dog walks on its leash with its nose to the ground, zigzagging and sniffing every patch of grass. Sound: highway traffic in the background, sniffing, wind. 15-20s (Water break): Beside the parked car, midday sun, asphalt. The owner's hand sets down a collapsible blue water bowl and pours water from a big plastic bottle. The dog drinks quickly, water dripping off its chin onto the pavement. Other cars are parked a few spaces away, and the dog pauses once to look around before drinking again. Sound: water pouring, lapping, car doors closing nearby. 20-25s (Back in the car): Open back door of the car, early afternoon, bright daylight. The dog jumps up onto the blanket-covered back seat, turns around once, lies down and rests its chin on the seat, looking at the camera. A crumpled snack bag and a water bottle sit on the floor mat, and the dog's eyes start to close. Sound: car seat creaking, a sigh, owner says "two more hours, buddy".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Back seat rider

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
