Let Him Pick His Own Toy

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A trip to the pet store: walking in through the doors, sniffing the treat aisle, picking a toy from a low bin, sitting nicely at the checkout, and carrying the toy out to the car.

TIMELINE

0-5s	Walking in
5-10s	Treat aisle sniff
10-15s	Picking a toy
15-20s	Checkout sit
20-25s	Carrying it out

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. 0-5s (Walking in): Pet store entrance, weekday afternoon, bright ceiling lights and daylight through the glass front, grey concrete floor. The dog walks in on a red leash, head up, nose working, tail wagging as it looks around the store. Shopping carts are lined up by the entrance, and a few other shoppers walk by in the background, blurred. Sound: automatic doors sliding, store background noise, claws on concrete. 5-10s (Treat aisle sniff): Pet store aisle, bright store lights, shelves of plain colorful bags and boxes with no readable labels. The dog walks slowly along the bottom shelf, nose almost touching the bags, sniffing intensely. Its tail wags faster the further it goes, and it stops at one spot to sniff for a long time before the owner gently tugs the leash. Sound: loud sniffing, cart wheels squeaking nearby, owner says "easy". 10-15s (Picking a toy): Toy section of the pet store, bright lights, a low open bin full of plush toys on the floor. The dog pushes its nose into the bin, then lifts out a floppy green plush frog by its leg and holds it proudly. Sound: plush toys rustling, a squeak, owner laughing "that one?". 15-20s (Checkout sit): Pet store checkout area, bright lights, concrete floor, counter edge in the background. The dog sits nicely beside the owner's sneakers, still holding the green plush frog in its mouth, tail sweeping the floor. The frog's leg dangles from the side of its mouth and it shifts its weight from paw to paw, eager to leave. Sound: register beeping, store chatter, owner says "good sit". 20-25s (Carrying it out): Store parking lot, cloudy afternoon daylight, asphalt and parked cars. The dog walks proudly toward the car on its leash, carrying the green plush frog in its mouth, head held high, prancing a little. A shopping cart is parked nearby, and the frog flops with every step while the owner's hand holds the leash loosely. Sound: squeaking with each step, wind, a car passing, owner chuckling.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Walking in

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. Pet store entrance, weekday afternoon, bright ceiling lights and daylight through the glass front, grey concrete floor. The dog walks in on a red leash, head up, nose working, tail wagging as it looks around the store. Shopping carts are lined up by the entrance, and a few other shoppers walk by in the background, blurred. Sound: automatic doors sliding, store background noise, claws on concrete.

Clip 2 | 5-10s | Treat aisle sniff

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
