Our Homemade Backyard Agility Course

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Practicing a homemade agility course in the backyard: a low jump over a pole, weaving through cones, a play tunnel, a pause on a wooden box, and a tug toy reward.

TIMELINE

0-5s	Low jump
5-10s	Cone weave
10-15s	Play tunnel
15-20s	Pause on the box
20-25s	Tug reward

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. 0-5s (Low jump): Backyard, late morning, partly cloudy daylight, patchy grass, wooden fence. A white PVC pole rests low across two orange buckets. The dog runs toward the camera and hops cleanly over the pole, landing on the grass and continuing to run. Sound: paws thudding on grass, owner says "over!". 5-10s (Cone weave): Same backyard, cloudy daylight, five orange traffic cones in a line on the grass. The owner's legs walk beside the cones and the dog weaves in and out between them, a little sloppy on the last one, then trots on. Sound: panting, tags jingling, owner says "good, good". 10-15s (Play tunnel): Backyard, overcast daylight, a blue fabric kids' play tunnel lying straight on the grass. The dog runs into one end of the tunnel and comes out the other end, shaking its head as it pops out. One end of the tunnel is held down with a brick, and the dog's tail is the last thing to disappear inside. Sound: fabric rustling, owner laughing "tunnel!". 15-20s (Pause on the box): Backyard near the fence, cloudy daylight, a low sturdy wooden box on the grass. The dog jumps up onto the box, sits down on top of it and waits, looking at the camera, tail swishing. A garden hose is coiled near the fence, and its ears twitch while it holds still, waiting for the release word. Sound: paws on wood, owner says "wait... wait...". 20-25s (Tug reward): Backyard, late morning, cloudy light, grass. The owner's hand holds one end of a braided rope tug toy and the dog grabs the other end, pulling back with playful growls and tail wagging. Its back legs are planted in the grass and its head shakes from side to side, the orange cones scattered behind it. Sound: playful growls, rope creaking, owner laughing "okay, you win".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Low jump

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. Backyard, late morning, partly cloudy daylight, patchy grass, wooden fence. A white PVC pole rests low across two orange buckets. The dog runs toward the camera and hops cleanly over the pole, landing on the grass and continuing to run. Sound: paws thudding on grass, owner says "over!".

Clip 2 | 5-10s | Cone weave

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
