He Will Never Make Peace With the Vacuum

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

The daily vacuum standoff: spotting the vacuum in the closet, barking at it, following it across the carpet, retreating to the couch, and guarding the closet after it is put away.

TIMELINE

0-5s	Spotting the vacuum
5-10s	Barking at it
10-15s	Following the vacuum
15-20s	Couch retreat
20-25s	Guarding the closet

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. 0-5s (Spotting the vacuum): Hallway, morning, daylight from a nearby window, wooden floor. The owner's hand opens a closet door revealing an upright grey vacuum cleaner. The dog, standing nearby, freezes, stares at it and lowers its head. Coats hang above the vacuum in the closet, and the dog's tail stops wagging and goes still behind it. Sound: closet door creaking, a low grumble, owner says "here we go". 5-10s (Barking at it): Living room, morning daylight, beige carpet. The upright vacuum stands still on the carpet. The dog stands a few feet away with its front legs spread, barking at it in short loud barks, hackles slightly up. A coffee table and a pair of slippers are in the background, and between barks it takes small steps back. Sound: sharp barks, owner laughing "it is not even on". 10-15s (Following the vacuum): Same living room, morning light through the window, beige carpet. The vacuum is running and the owner's legs push it forward. The dog follows a few feet behind it, ducking and pouncing toward it then backing off. Its tail is up and stiff, and it barks once each time the vacuum turns in its direction. Sound: loud vacuum roar, barking, owner says "buddy, move". 15-20s (Couch retreat): Living room couch, morning daylight, grey cushions. The dog sits on the couch with its ears back, watching the floor where the vacuum is moving, letting out low growls but staying put. A throw blanket is bunched up under it, and its eyes follow the vacuum cord back and forth across the carpet. Sound: vacuum humming nearby, low growling, a huff. 20-25s (Guarding the closet): Hallway, late morning light, wooden floor. The closet door is now closed. The dog lies right in front of it with its chin on its paws, eyes on the door, staying on guard. Its ears twitch at every small sound, and a pair of shoes and an umbrella lie near the closet door. Sound: quiet house, a deep sigh, owner says "it is gone, I promise".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Spotting the vacuum

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. Hallway, morning, daylight from a nearby window, wooden floor. The owner's hand opens a closet door revealing an upright grey vacuum cleaner. The dog, standing nearby, freezes, stares at it and lowers its head. Coats hang above the vacuum in the closet, and the dog's tail stops wagging and goes still behind it. Sound: closet door creaking, a low grumble, owner says "here we go".

Clip 2 | 5-10s | Barking at it

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
