Morning Jog With My Running Buddy

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

An early morning jog: harness on at the door, jogging down a quiet street, a water break, a roll on the park grass and a tired walk home.

TIMELINE

0-5s	Harness on
5-10s	Jogging the street
10-15s	Water break
15-20s	Rolling in grass
20-25s	Walk home

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. 0-5s (Harness on): Front entryway of a house, early morning, pale blue daylight through a small door window, running shoes and a doormat on the floor. The dog stands wagging its tail while the owner's hands clip a black running harness around its chest. As soon as it clicks, the dog spins once toward the door. Sound: tags jingling, the harness buckle clicking, owner says "ready?". 5-10s (Jogging the street): Quiet suburban sidewalk, early morning, cool grey daylight, parked cars and damp lawns on one side. Camera is the owner's point of view while jogging, bouncing a little with each step. The dog trots beside the owner's legs on a short black leash, tongue out, ears forward, keeping an easy pace. Sound: sneakers slapping pavement, the owner's breathing, birds, the dog's light panting. 10-15s (Water break): Edge of a small neighborhood park, early morning, soft overcast light, damp grass and a paved path. The owner crouches and holds out a collapsible blue silicone water bowl filled from a bottle. The dog laps the water eagerly, drops splashing onto the path and its chin dripping. Sound: loud lapping, owner breathing hard, a car passing in the distance. 15-20s (Rolling in grass): Same park, early morning, overcast light, patchy wet grass and a wooden bench in the background. The owner's legs in black running tights stretch on the grass. The dog flops down next to them, rolls onto its back and wiggles in the wet grass with its legs in the air. Sound: birds, grass rustling, owner laughs and says "that's not stretching". 20-25s (Walk home): Same quiet suburban street, morning light a little brighter now, dew on the lawns. Camera points down toward the dog walking slowly beside the owner's sneakers on the sidewalk, tongue hanging out, panting hard, glancing up at the camera now and then with damp grass stuck to its back. Sound: slow footsteps, heavy panting, tags jingling, owner says "good run, bud".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Harness on

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. Front entryway of a house, early morning, pale blue daylight through a small door window, running shoes and a doormat on the floor. The dog stands wagging its tail while the owner's hands clip a black running harness around its chest. As soon as it clicks, the dog spins once toward the door. Sound: tags jingling, the harness buckle clicking, owner says "ready?".

Clip 2 | 5-10s | Jogging the street

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. Quiet suburban sidewalk, early morning, cool grey daylight, parked cars and damp lawns on one side. Camera is the owner's point of view while jogging, bouncing a little with each step. The dog trots beside the owner's legs on a short black leash, tongue out, ears forward, keeping an easy pace. Sound: sneakers slapping pavement, the owner's breathing, birds, the dog's light panting.

Clip 3 | 10-15s | Water break

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
