Running Beside My Bike

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

An afternoon bike ride on a quiet park trail: getting ready, trotting alongside the bike, a short stop, a puddle crossing and a rest in the shade.

TIMELINE

0-5s	Ready to ride
5-10s	Trotting alongside
10-15s	Quick stop
15-20s	Puddle crossing
20-25s	Shade rest

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. 0-5s (Ready to ride): Concrete driveway in the afternoon, bright overcast daylight, a blue bike leaning on a white garage door. The dog stands next to the bike wearing a padded orange harness clipped to a short leash, tail wagging fast, looking up at the owner and taking a few excited steps in place. Sound: tags jingling, the bike kickstand clicking, owner says "let's go". 5-10s (Trotting alongside): Flat paved park trail, afternoon, soft daylight, trees and mowed grass on both sides. Camera is the owner's point of view riding slowly, the edge of the handlebar in frame. The dog trots steadily beside the front wheel on the grass side, ears forward, at an easy relaxed pace. Sound: bike tires humming, chain clicking, the dog's steady panting, birds. 10-15s (Quick stop): Same park trail, afternoon daylight, a wooden trail post and a trash can beside the path. The bike stops and the owner's sneaker touches the ground. The dog stops too, sits down panting next to the front wheel, sniffs the air, then looks up at the camera. Sound: brakes squeaking softly, panting, owner says "good wait". 15-20s (Puddle crossing): Gravel section of the trail, afternoon, cloudy light, a wide shallow muddy puddle across the path. The bike rolls slowly around the dry edge while the dog trots straight through the middle of the puddle, splashing brown water up its tan legs and onto its belly. Sound: gravel crunching, water splashing, owner laughs "of course you did". 20-25s (Shade rest): Grassy spot under a big leafy tree beside the trail, afternoon, dappled daylight, the blue bike lying on its side in the grass. The dog lies in the cool grass with its muddy legs stretched out, panting, while the owner's hand pats its side and offers a little water. Sound: breeze in the leaves, slow panting, distant kids playing.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Ready to ride

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. Concrete driveway in the afternoon, bright overcast daylight, a blue bike leaning on a white garage door. The dog stands next to the bike wearing a padded orange harness clipped to a short leash, tail wagging fast, looking up at the owner and taking a few excited steps in place. Sound: tags jingling, the bike kickstand clicking, owner says "let's go".

Clip 2 | 5-10s | Trotting alongside

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
