He Talks Back (Every Single Time)

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Everyday sass at home: the dog grumbles when told no, howls with a siren, groans at bath time, argues for a walk and ends with one last huff and flop on the couch.

TIMELINE

0-5s	Grumbles at no
5-10s	Siren howl
10-15s	Groans at bath
15-20s	Asks for walk
20-25s	Final huff

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. 0-5s (Grumbles at no): Kitchen in the afternoon, daylight through a window, beige tile floor, a plate with a sandwich on the counter. The dog stands by the counter staring at the plate. When the owner says no, the dog looks at the camera, opens its mouth a little and lets out a long low grumbling whine. Sound: owner says "no, that's mine", a long grumbling woo-woo sound from the dog. 5-10s (Siren howl): Living room by the front window, late afternoon daylight through sheer white curtains, a grey carpet. The dog sits on the carpet, points its nose up toward the ceiling, ears folded back, and howls along with a siren passing on the street outside. Sound: an ambulance siren fading by outside, the dog's long howl, owner laughing. 10-15s (Groans at bath): Hallway outside a bathroom, afternoon indoor light, wooden floor, the bathroom door half open. The owner's hand holds up a blue towel. The dog lies down flat on the floor, rolls half onto its side and makes a long groaning noise without getting up. Sound: owner says "bath time", a long groan, tags clinking on the floor. 15-20s (Asks for walk): Front door area in the evening, warm hallway ceiling light, sneakers on a mat, a leash hanging on a hook. The dog stands facing the camera and makes a series of short grumbling woo sounds, front paws shifting, then looks at the door and back at the camera. Sound: woo-woo-woo grumbles, owner says "in five minutes", more grumbling. 20-25s (Final huff): Living room couch in the evening, warm lamp light, a crumpled throw blanket. The dog climbs onto the couch, flops down with its back to the camera, lets out a loud huff through its nose and then glances back over its shoulder at the owner. Sound: couch cushions squishing, a loud huff, owner says "okay, okay, we'll go".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Grumbles at no

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. Kitchen in the afternoon, daylight through a window, beige tile floor, a plate with a sandwich on the counter. The dog stands by the counter staring at the plate. When the owner says no, the dog looks at the camera, opens its mouth a little and lets out a long low grumbling whine. Sound: owner says "no, that's mine", a long grumbling woo-woo sound from the dog.

Clip 2 | 5-10s | Siren howl

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
