My Garden Helper

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A spring afternoon in the vegetable garden: the dog watches the owner plant, digs his own hole, carries a stick around, sniffs the hose water and rests between the beds.

TIMELINE

0-5s	Watching the planting
5-10s	Digs his own hole
10-15s	Carrying a stick
15-20s	Hose water sniff
20-25s	Resting in rows

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. 0-5s (Watching the planting): Backyard vegetable garden, spring afternoon, mild overcast daylight, raised wooden beds with dark soil. The owner's gloved hands press a small tomato seedling into the soil and pat it down. The dog lies at the edge of the bed, watching closely, head tilted. Sound: birds, soil being patted, owner says "just watch, okay?". 5-10s (Digs his own hole): Patch of bare dirt beside the raised garden beds, spring afternoon, soft overcast daylight, a watering can nearby. The dog digs fast with its front paws, dirt flying out behind it, then stops and sticks its nose deep into the hole to sniff. Sound: digging scrapes, dirt scattering, owner sighs "not there". 10-15s (Carrying a stick): Garden path of wood chips between the raised beds, afternoon, cloudy light. The dog trots proudly down the path carrying a long thin stick in its mouth, tail high, bumping the stick against the corners of the wooden beds as it goes. Sound: wood chips crunching, stick knocking wood, owner laughs. 15-20s (Hose water sniff): Same vegetable garden, afternoon daylight, rows of small green plants. The owner's hand waters a bed with a green garden hose on a gentle shower setting. The dog walks over, sniffs the stream and licks at the water, getting its nose and chin wet. Sound: water sprinkling on soil, lapping, birds. 20-25s (Resting in rows): Strip of grass between two raised garden beds, late afternoon, soft overcast daylight. The dog lies on its side with dirt on its paws and nose, the stick beside it, eyes half closed while the owner's gloved hand pats its side. Sound: birds, light breeze, owner says "best helper ever... sort of".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Watching the planting

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
