Visiting Grandma's House

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A Sunday visit to grandma: the porch welcome, sniffing her living room, a sneaky biscuit in the kitchen, a slow walk in her garden and a nap next to her armchair.

TIMELINE

0-5s	Porch welcome
5-10s	Sniffing the house
10-15s	Sneaky biscuit
15-20s	Garden stroll
20-25s	Nap by her chair

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. 0-5s (Porch welcome): Front porch of a small brick house, late morning, overcast daylight, potted red geraniums on the steps. Grandma, an older woman in a beige cardigan, opens the screen door. The dog trots up the steps with its tail wagging hard and pushes its head against her legs while she bends down to pat its back. Sound: screen door creaking, tags jingling, grandma laughing "there's my boy". 5-10s (Sniffing the house): Grandma's living room, soft daylight through lace curtains, patterned brown carpet, an old floral armchair and a wooden side table. The dog walks slowly across the room with its nose low, sniffing the carpet and the bottom of the armchair, tail swaying gently from side to side. Sound: clock ticking, sniffing, an old radio playing quietly in another room. 10-15s (Sneaky biscuit): Grandma's kitchen, afternoon daylight from the window over the sink, yellow linoleum floor, old wooden cabinets. The dog sits politely in front of grandma's slippers, staring up. Her wrinkled hand holds out a small plain dog biscuit and the dog takes it gently and crunches it, crumbs falling on the floor. Sound: crunching, grandma whispering "don't tell your mom". 15-20s (Garden stroll): Grandma's small back garden, overcast afternoon, neat raised vegetable beds, a rosemary bush, a stone path and a chain-link fence. The dog walks beside grandma's legs along the stone path at her slow pace, stops to sniff the rosemary bush, then catches up with her again. Sound: birds, a wind chime, slow footsteps on stone, the dog sniffing. 20-25s (Nap by her chair): Back in grandma's living room, late afternoon, fading grey daylight through the lace curtains. The dog lies stretched out on the patterned carpet beside her armchair, her slippered foot resting near its side. Its eyes slowly close and its ribs rise and fall as it dozes off. Sound: clock ticking, a soft snore, grandma saying quietly "he's all tired out".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Porch welcome

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. Front porch of a small brick house, late morning, overcast daylight, potted red geraniums on the steps. Grandma, an older woman in a beige cardigan, opens the screen door. The dog trots up the steps with its tail wagging hard and pushes its head against her legs while she bends down to pat its back. Sound: screen door creaking, tags jingling, grandma laughing "there's my boy".

Clip 2 | 5-10s | Sniffing the house

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
