Best Friends With the Cat

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

The dog and the orange cat on a lazy day: a nose boop, cat rubs, sharing a sun patch, a gentle lick and following each other into the kitchen.

TIMELINE

0-5s	Nose boop
5-10s	Cat rubs
10-15s	Sharing the sun
15-20s	Gentle lick
20-25s	Following the cat

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. 0-5s (Nose boop): Living room, late afternoon daylight through the window, beige carpet, a brown couch. The dog lies on the carpet and an orange tabby cat walks up to it and touches noses with the dog for a second, the dog's tail thumping slowly on the floor. Sound: soft purring, tail thumping, owner whispering "aww". 5-10s (Cat rubs): Same living room, late afternoon daylight, beige carpet. The orange cat walks past the lying dog, rubbing the side of its face against the dog's chin, tail held up. The dog stays still and sniffs the cat gently. The dog's tail gives a slow wag on the carpet. Sound: purring, a quiet meow, the dog sniffing. 10-15s (Sharing the sun): Living room, a bright patch of afternoon sunlight on the carpet by the window. The dog and the orange cat lie about a foot apart in the sun patch, both dozing, the cat's tail tip twitching now and then. The dog's paws twitch a little in its sleep. Sound: quiet room, slow breathing, a clock ticking. 15-20s (Gentle lick): Same sunny spot on the living room carpet, afternoon daylight. The dog lifts its head and gives the cat one slow lick on top of its head. The cat closes its eyes and stays lying where it is. The fur on top of the cat's head is left a little wet. Sound: purring gets louder, owner laughing softly. 20-25s (Following the cat): Kitchen, early evening daylight, white tile floor. The orange cat walks across the tiles with its tail up, and the dog follows a few steps behind, sniffing the air, both stopping near the back door. The dog's nails click softly on the tiles as it walks. Sound: soft paw steps, a meow, tags jingling.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Nose boop

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. Living room, late afternoon daylight through the window, beige carpet, a brown couch. The dog lies on the carpet and an orange tabby cat walks up to it and touches noses with the dog for a second, the dog's tail thumping slowly on the floor. Sound: soft purring, tail thumping, owner whispering "aww".

Clip 2 | 5-10s | Cat rubs

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
