Chasing Butterflies in the Meadow

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A sunny spring meadow walk: wandering through tall grass, spotting a butterfly, bouncing after it, losing it and resting in the grass when another one floats by.

TIMELINE

0-5s	Meadow wander
5-10s	Butterfly spotted
10-15s	Bouncy chase
15-20s	Lost it
20-25s	Grass rest

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. 0-5s (Meadow wander): Wide open meadow, late spring, sunny morning, natural daylight, tall green grass with small white and yellow wildflowers, a tree line in the distance. The dog wanders through the grass ahead of the camera, only its back and head visible above the grass, tail swishing. Sound: breeze, birds singing, grass swishing, tags jingling. 5-10s (Butterfly spotted): Same sunny meadow, natural daylight, wildflowers around. A small white butterfly flutters past near the dog's head, and the dog stops, ears up, head following the butterfly as it zigzags slowly over the grass and flowers, mouth closed in focus, standing perfectly still for a moment before taking one careful step. Sound: breeze, owner whispering "what's that?". 10-15s (Bouncy chase): Open meadow, sunny morning, tall grass and wildflowers. The dog bounces after the white butterfly with springy hops through the tall grass, front paws lifting high, snapping playfully at the air a little behind it, ears flopping with each hop, grass and petals brushing against its chest. Sound: grass rustling, playful huffs, owner laughing. 15-20s (Lost it): Middle of the meadow, sunny daylight, wildflowers moving in the breeze. The dog stops and looks around, turning its head in all directions, then puts its nose down and sniffs the grass as if the butterfly might be hiding there. Sound: breeze, sniffing, owner says "it flew away, buddy". 20-25s (Grass rest): Sunny meadow, late morning, natural daylight, flattened patch of tall grass. The dog lies in the grass panting, tongue out, when another butterfly floats past above it, and it just follows it with its eyes and ears without getting up. Sound: panting, birds, a soft breeze, owner chuckling.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Meadow wander

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. Wide open meadow, late spring, sunny morning, natural daylight, tall green grass with small white and yellow wildflowers, a tree line in the distance. The dog wanders through the grass ahead of the camera, only its back and head visible above the grass, tail swishing. Sound: breeze, birds singing, grass swishing, tags jingling.

Clip 2 | 5-10s | Butterfly spotted

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
