Meeting the Cows on the Farm

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A calm walk on a farm meeting cows: walking the lane, sitting back while curious cows come to the fence, head tilts at a moo, walking the fence line and a water bowl at the farmhouse.

TIMELINE

0-5s	Farm lane
5-10s	Curious cows
10-15s	Moo head tilt
15-20s	Fence line walk
20-25s	Farmhouse water

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. 0-5s (Farm lane): Dirt farm lane between a wire fence and a grassy ditch, cool morning, overcast daylight, green pasture beyond the fence with black and white cows far away. The dog walks on leash beside the owner along the lane, nose down sniffing the tire tracks. Sound: birds, wind across the field, footsteps on dirt, tags jingling. 5-10s (Curious cows): Beside the wire pasture fence, overcast morning, three black and white cows slowly walking toward the fence out of curiosity. The dog stops and sits beside the owner a few meters back from the fence, watching the cows, ears up, body calm. Sound: cows' heavy footsteps on grass, owner whispering "easy, sit". 10-15s (Moo head tilt): Pasture fence, overcast daylight, one cow standing on the far side of the fence chewing. The cow lets out a loud moo, and the dog's ears flick and its head tilts to one side, then the other, still sitting calmly at a safe distance. Sound: a loud moo, owner laughing quietly "what was that?". 15-20s (Fence line walk): Dirt lane along the pasture fence, overcast morning, green grass and fence posts. The dog walks calmly on leash beside the owner, keeping a few meters from the fence, while two cows walk slowly on the other side, both groups glancing at each other. Sound: footsteps, cows breathing, owner saying "good boy, nice and calm". 20-25s (Farmhouse water): Wooden porch steps of an old white farmhouse, late morning, overcast daylight, muddy boots on the step and a steel bowl of water on the ground. The dog drinks loudly from the bowl, then sits on the grass beside the steps, panting. Sound: lapping water, a screen door, a distant moo.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Farm lane

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. FACEBOOK CAPTION

The cows wanted to be friends.
He wanted to watch from a respectful distance. Fair enough.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
