Welcoming Me Home After a Long Trip

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Coming home after two weeks away: the front door reunion, happy crying circles in the hallway, a full suitcase inspection, a big floor hug and finally settling on my feet.

TIMELINE

0-5s	Door reunion
5-10s	Crying circles
10-15s	Suitcase inspection
15-20s	Floor hug
20-25s	Settled on feet

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. 0-5s (Door reunion): Front entryway of a small house, late afternoon, flat grey daylight coming in behind the owner, shoes and a doormat on the floor. The owner's hand pushes the front door open and the dog is already there, tail swinging so hard its whole back end wiggles, pushing its head against the owner's knees and whining. Sound: door opening, high excited whining, tags jingling, owner says "hi buddy, I'm home". 5-10s (Crying circles): Narrow hallway inside the front door, ordinary ceiling light on, grey-blue daylight from the open door, beige tile floor. The dog circles the owner's legs again and again, rubbing its side against the jeans and the handle of a black rolling suitcase, making soft crying sounds with its mouth slightly open. Sound: claws scrabbling on tile, soft crying whines, suitcase wheels rolling. 10-15s (Suitcase inspection): Living room, late afternoon daylight through a window with plain white blinds, grey carpet and a brown couch. The black suitcase lies on its side on the carpet. The dog sniffs every corner and zipper of it carefully, nose working hard, tail slowly wagging, and pauses to sneeze once. Sound: loud sniffing, a sneeze, owner laughing "yeah, it smells like a hotel". 15-20s (Floor hug): Same living room, late afternoon light, the owner sitting on the grey carpet with legs crossed. The dog presses its whole chest into the owner, leaning its weight so the owner rocks back a little, then licks the owner's chin while the owner's arms wrap around its neck and scratch its shoulders. Sound: happy panting, owner's muffled laugh, tags clinking. 20-25s (Settled on feet): Living room in the evening, an ordinary floor lamp switched on, dark window behind the couch. The owner sits on the brown couch with socked feet on the carpet. The dog lies down right on top of the owner's feet, rests its chin on the floor, lets out a long sigh and closes its eyes. Sound: quiet room, a long doggy sigh, owner saying softly "I missed you too".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Door reunion

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. Front entryway of a small house, late afternoon, flat grey daylight coming in behind the owner, shoes and a doormat on the floor. The owner's hand pushes the front door open and the dog is already there, tail swinging so hard its whole back end wiggles, pushing its head against the owner's knees and whining. Sound: door opening, high excited whining, tags jingling, owner says "hi buddy, I'm home".

Clip 2 | 5-10s | Crying circles

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
