Meeting the New Baby

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Our dog meets his new baby sister: sniffing her blanket first, a calm sit at the front door, a gentle first sniff with dad holding his collar, resting by the bassinet and a quiet night watch.

TIMELINE

0-5s	Sniffing the blanket
5-10s	Calm sit at door
10-15s	Gentle first sniff
15-20s	Resting by bassinet
20-25s	Night watch

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. 0-5s (Sniffing the blanket): Living room, midday natural daylight from a side window, beige carpet and a grey couch. Dad crouches down holding a folded white baby blanket with small blue stripes. The dog steps forward and sniffs the blanket slowly and carefully, ears forward, tail swaying low and relaxed. Sound: careful sniffing, dad says quietly "that's your baby sister". 5-10s (Calm sit at door): Front hallway, afternoon daylight through the open front door, shoes by the wall. Mom steps inside carrying a grey infant car seat with a blanket over the handle. Dad's hand points down and the dog sits on the tile floor, tail sweeping side to side, watching the car seat with ears up. Sound: door closing, dad says "sit, good boy", tail swishing on tile. 10-15s (Gentle first sniff): Living room, soft afternoon daylight, mom seated on the grey couch holding the sleeping newborn wrapped in a white blanket. Dad kneels beside the dog with one hand on its collar. The dog stretches its neck and gently sniffs the baby's tiny socked foot, then steps back and licks its own nose. Sound: soft sniffing, baby making a tiny sleepy noise, mom whispering "so gentle". 15-20s (Resting by bassinet): Parents' bedroom, late afternoon light through thin beige curtains, a white bassinet beside the bed. Mom sits in a nearby armchair. The dog lies on the carpet next to the bassinet with its front paws stretched out, head up, calmly watching the room, then lowers its chin onto its paws. Sound: quiet room, a white noise machine humming, a slow doggy breath. 20-25s (Night watch): Living room at night, one small table lamp switched on, dark window. Mom sits in a recliner feeding the baby a bottle under a soft blanket. The dog lies curled on the rug at her feet, ears twitching at each small baby noise, eyes half open, staying perfectly still. Sound: baby softly drinking, clock ticking, mom whispering "you're on night shift too, huh".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Sniffing the blanket

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. Living room, midday natural daylight from a side window, beige carpet and a grey couch. Dad crouches down holding a folded white baby blanket with small blue stripes. The dog steps forward and sniffs the blanket slowly and carefully, ears forward, tail swaying low and relaxed. Sound: careful sniffing, dad says quietly "that's your baby sister".

Clip 2 | 5-10s | Calm sit at door

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
