Family Movie Night

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Friday movie night: the dog claims the blanket pile, stares down the popcorn, squeezes between the kids on the couch, reacts to a dog on screen and falls asleep before the end.

TIMELINE

0-5s	Claims the blankets
5-10s	Popcorn stare
10-15s	Squeezed between kids
15-20s	Hears a dog on TV
20-25s	Asleep before the end

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. 0-5s (Claims the blankets): Living room at night, two ordinary table lamps on, beige carpet with a pile of fluffy blankets and pillows in front of the couch. Two kids are spreading the blankets out. The dog walks straight into the middle of the pile, turns around twice and lies down right on top of it. Sound: kids laughing "no, that's our spot", blankets rustling. 5-10s (Popcorn stare): Same living room, warm lamp light at night. Dad sits on the couch holding a big plastic bowl of popcorn on his lap. The dog sits in front of him staring at the bowl, a drop of drool on its lip. Dad's hand reaches into his pocket and gives it a plain dog treat instead. Sound: popcorn crunching, dad says "nope, you get this one", treat crunching. 10-15s (Squeezed between kids): Living room at night, lamps dimmed, flickering light from a TV that faces away from the camera. The dog has climbed onto the couch and sits squeezed between two kids in pajamas, its big body taking up most of the cushion, ears pointed toward the TV. Sound: movie audio from the TV, kids giggling, couch creaking. 15-20s (Hears a dog on TV): Same couch at night, only the flickering TV light and one small lamp. A dog barks in the movie. The dog's ears shoot up, it lifts its head and tilts it to one side staring toward the TV, then gives one low woof while the kids laugh. Sound: a dog barking on the TV, one low woof, kids cracking up. 20-25s (Asleep before the end): Living room late at night, one small lamp on, TV turned off. Both kids are asleep under blankets on the couch, and the dog is asleep stretched out across their legs, head resting on a pillow. Dad's hand reaches in and switches off the lamp. Sound: soft snoring, lamp switch click, dad whispering "movie night winner".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Claims the blankets

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. Living room at night, two ordinary table lamps on, beige carpet with a pile of fluffy blankets and pillows in front of the couch. Two kids are spreading the blankets out. The dog walks straight into the middle of the pile, turns around twice and lies down right on top of it. Sound: kids laughing "no, that's our spot", blankets rustling.

Clip 2 | 5-10s | Popcorn stare

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. Same living room, warm lamp light at night. Dad sits on the couch holding a big plastic bowl of popcorn on his lap. The dog sits in front of him staring at the bowl, a drop of drool on its lip. Dad's hand reaches into his pocket and gives it a plain dog treat instead. Sound: popcorn crunching, dad says "nope, you get this one", treat crunching.

Clip 3 | 10-15s | Squeezed between kids

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
