Puppy vs the Stairs

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

The puppy faces three low porch steps for the first time with the owner right beside him: peering down, testing a paw, sliding down one step, making it to the grass and trying to climb back up.

TIMELINE

0-5s	Peering down
5-10s	Testing a paw
10-15s	Sliding down
15-20s	Made it
20-25s	Going back up

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 9-week-old German Shepherd puppy, black and tan with fluffy fur, oversized paws and floppy ears that are just starting to stand, wearing a small brown collar. 0-5s (Peering down): Back porch, sunny afternoon, only three low wooden steps leading down to soft green grass. The puppy stands at the top edge looking down at the first step and whines, while the owner crouches right beside him with one hand close to his side. Sound: tiny whine, birds, owner saying "you can do it". 5-10s (Testing a paw): Same porch, afternoon daylight, three low wooden steps. The puppy reaches one big front paw down to the first step, taps it, then pulls it back up and takes a step back. The owner's hand stays right next to him. Sound: paw tapping wood, owner laughing softly "almost". 10-15s (Sliding down): Back porch, sunny afternoon, only three low steps. The owner kneels on the grass at the bottom with both open hands close to the puppy. The puppy slides down the first low step on his belly with his front paws stretched out, then stands up wobbly. Sound: soft scrape on wood, owner saying "good boy, keep going". 15-20s (Made it): Bottom of the three low porch steps, afternoon sun, soft grass. The puppy hops down the last low step and tumbles gently onto the grass right into the owner's waiting hands, then bounces up and wags his tail wildly. The owner's hands stay low and close the whole time. Sound: soft thump on grass, owner cheering "you did it!", happy yips. 20-25s (Going back up): Same back porch, sunny afternoon, three low wooden steps. The puppy puts his front paws on the first step and tries to climb, back legs scrambling. The owner's hand gently supports his bottom and helps him up onto the step. Sound: little grunts, paws scrambling, owner saying "up we go".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Peering down

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The owner's hand gently supports his bottom and helps him up onto the step. Sound: little grunts, paws scrambling, owner saying "up we go".

FACEBOOK CAPTION

Three steps. That's it. Three tiny steps.
And he acted like it was a mountain.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
