Puppy Teething Time

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Life with a teething land shark: shoelace attacks, a frozen washcloth, a growly rope toy, nibbling fingers and finally gentle tug with a soft fleece toy.

TIMELINE

0-5s	Shoelace attack
5-10s	Frozen washcloth
10-15s	Rope growls
15-20s	Finger nibbles
20-25s	Gentle tug

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 9-week-old German Shepherd puppy, black and tan with fluffy fur, oversized paws and floppy ears that are just starting to stand, wearing a small brown collar. 0-5s (Shoelace attack): Living room, afternoon, natural light from the window, wooden floor. The camera points down at the owner's sneakers. The puppy has a shoelace in his mouth and pulls it with tiny growls, then lets go when the owner's hand offers a rubber teething toy. Sound: tiny growls, owner saying "no, chew this instead". 5-10s (Frozen washcloth): Kitchen, afternoon daylight, beige tile floor. The puppy lies on his belly chewing on a damp frozen blue washcloth twisted into a knot, holding it between his oversized paws while the owner watches nearby. The owner sits on a kitchen chair close by, watching. Sound: soft chewing, puppy snuffling, fridge hum. 10-15s (Rope growls): Living room rug, afternoon window light. The puppy chews on the end of a small knotted rope toy, shaking his head side to side and making tiny serious growls, his floppy ears bouncing. He pounces on the rope, then lies down to chew it again. Sound: squeaky baby growls, owner laughing "so fierce". 15-20s (Finger nibbles): Couch in the living room, afternoon daylight. The owner's hand rests near the puppy, who chomps on a finger with his needle-sharp teeth. The owner says ouch, pulls the hand away and gives him a rubber chew toy, which he grabs right away. Sound: owner saying "ouch! gentle", happy puppy chewing. 20-25s (Gentle tug): Living room floor, late afternoon light, faded rug. The owner holds one end of a soft fleece tug toy low to the ground. The puppy holds the other end and tugs gently backwards, tail wagging and back paws slipping a little. Sound: tiny growls, paws sliding on the rug, owner saying "good boy".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Shoelace attack

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real 9-week-old German Shepherd puppy, black and tan with fluffy fur, oversized paws and floppy ears that are just starting to stand, wearing a small brown collar. Living room, afternoon, natural light from the window, wooden floor. The camera points down at the owner's sneakers. The puppy has a shoelace in his mouth and pulls it with tiny growls, then lets go when the owner's hand offers a rubber teething toy. Sound: tiny growls, owner saying "no, chew this instead".

Clip 2 | 5-10s | Frozen washcloth

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
