Back to School Morning

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

The first school morning after summer from the dog's point of view: breakfast duty, inspecting the backpack, a goodbye hug, watching from the window and missing his kid.

TIMELINE

0-5s	Breakfast duty
5-10s	Backpack check
10-15s	Goodbye hug
15-20s	Window watch
20-25s	Missing him

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. 0-5s (Breakfast duty): Kitchen, early morning, cool daylight through the window and the ceiling light on. A boy about nine sits at the table eating cereal. The dog sits right beside his chair, chin resting on the edge of the table, watching every spoonful. Sound: spoon clinking a bowl, boy saying "this isn't for you", morning bustle. 5-10s (Backpack check): Front hallway, early morning daylight, shoes by the door and coats on hooks. The boy pulls on a plain blue backpack. The dog walks around him sniffing the backpack all over, his nose pressed to the zipper pocket. A lunch bag sits on the floor next to the door. Sound: zipper sounds, sniffing, parent calling "five minutes!". 10-15s (Goodbye hug): Front door, morning daylight from the open door, a doormat and the porch outside. The boy kneels and hugs the dog around the neck. The dog leans into him and licks his ear, tail wagging slowly. Morning sun lights up the front yard behind them. Sound: boy saying "bye, buddy, I'll be back", birds outside. 15-20s (Window watch): Living room, morning daylight through a big front window. The dog stands with his front paws on the low windowsill, watching the boy walk down the driveway with a parent, ears up, and lets out a soft whine as they go out of view. Sound: soft whine, car door in the distance, quiet house. 20-25s (Missing him): Kid's bedroom, late morning, natural light through the curtains, a bed with a dinosaur blanket. The dog lies on the bed with his chin resting on the boy's grey hoodie, eyes open, looking toward the door. Sunlight falls across the floor in a soft square. Sound: quiet house, a long sigh, clock ticking.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
