Winter Sweater Day

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

First cold day of winter and out comes the sweater: putting it on, stiff walking, a shake test, trotting in light snow and warming up by the heater.

TIMELINE

0-5s	Sweater on
5-10s	Stiff walking
10-15s	Shake test
15-20s	Snow trot
20-25s	Warming up

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. 0-5s (Sweater on): Living room, cold winter morning, pale grey daylight through a window showing light snow outside. The owner's hands gently pull a red knit dog sweater over the dog's head. He stands still with his ears pulled back, looking unsure. Snowflakes drift past the window behind him. Sound: soft fabric rustling, owner saying "almost done, you look great". 5-10s (Stiff walking): Same living room, winter morning daylight, wooden floor. The dog takes a few stiff, high-stepping strides across the floor in the red sweater, lifting his legs oddly as if he is unsure how to walk in it. His tail stays low as he sniffs the edge of the rug. Sound: claws clicking on wood, owner laughing "walk normal, buddy". 10-15s (Shake test): Hallway, winter morning, plain grey daylight from a small window, shoes by the door. The dog stops and gives a full-body shake. The red sweater stays on and he stands still for a second, as if surprised it is still there. Sound: shake rattle, tags jingling, owner saying "it stays on". 15-20s (Snow trot): Front yard, cold overcast winter day, a thin layer of fresh snow on the grass and bare trees along the street. The dog trots happily across the snow in his red sweater, sniffing the ground, his breath visible in the cold air. Sound: snow crunching under paws, quiet street, distant car. 20-25s (Warming up): Living room, winter afternoon, grey window light and a lamp on, a floor heater vent near the wall. The dog lies on a rug next to the warm vent, still wearing the red sweater, eyes half closed, a few snowflakes melting on his ears. Sound: heater humming, slow breathing, owner whispering "cozy now?".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Sweater on

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. Living room, cold winter morning, pale grey daylight through a window showing light snow outside. The owner's hands gently pull a red knit dog sweater over the dog's head. He stands still with his ears pulled back, looking unsure. Snowflakes drift past the window behind him. Sound: soft fabric rustling, owner saying "almost done, you look great".

Clip 2 | 5-10s | Stiff walking

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. FACEBOOK CAPTION

He protested the sweater for about 30 seconds.
Then he refused to let me take it off.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
