Negative Prompt (sob prompt-er jonno)

dog moves before the command, dog does an action that was not commanded, voice and movement out of sync, visible trainer face or lip-sync, overlapping speech, extra legs, deformed paws, blurry face, cartoon, wrong breed, morphing, text, watermark, slow motion, video shorter or longer than 20 seconds

Prompt 1: Search for the Hidden Toy (20 seconds)

A vertical 9:16 video, **exactly 20 seconds long**, realistic footage of an adorable fluffy long-haired German Shepherd puppy (about 4 months old, black-and-tan coat, big upright ears, black tactical harness with a small white text patch) doing obedience training on bright green artificial turf in an outdoor K9 training yard (green hedge wall, red training boxes, chain-link gate with a dog-training banner). Trainers wear black uniforms and are framed from the chest down only, so their faces and mouths are never visible. Three red training boxes stand in a row; a small yellow squeaky toy is hidden behind the last one. Soft natural daylight, handheld smartphone camera at low dog-eye level, shallow depth of field, ultra-realistic fur, 4K, real-time speed (no slow motion), no text overlay.

Timeline with voice commands (0 - 20 s):
0.0s - The puppy sits beside the trainer facing the three red boxes, still.
1.0s - Trainer says **"Search!"** + arm sweeps toward the boxes -> the puppy trots to the first box and sniffs around it.
4.0s - It moves to the second box, nose to the turf, sniffing, no new command.
8.0s - At the third box its ears shoot up; it finds the yellow toy and grabs it.
11.0s - Trainer says **"Bring!"** + trainer pats his leg -> the puppy trots back proudly with the toy in its mouth.
15.0s - Trainer says **"Sit!"** + palm swings up -> the puppy sits in front of the trainer, toy in mouth.
17.5s - Trainer says **"Give!"** + open palm under its chin -> the puppy drops the toy into the palm and stays sitting until 20.0s.

SYNC RULES: one continuous video, exactly 20 seconds. Every command is a single short word spoken by the off-screen trainer in a firm, clear voice together with its hand signal, and the dog starts the matching movement within half a second after the word and finishes it in about one second. The dog never moves before a command and never does any action that was not commanded; between commands it holds still. Only one command at a time, no overlapping speech, no extra dialogue. Light background music stays quiet under the voice.

Prompt 2: Push the Ball (20 seconds)

A vertical 9:16 video, **exactly 20 seconds long**, realistic footage of an adorable fluffy long-haired German Shepherd puppy (about 4 months old, black-and-tan coat, big upright ears, black tactical harness with a small white text patch) doing obedience training on bright green artificial turf in an outdoor K9 training yard (green hedge wall, red training boxes, chain-link gate with a dog-training banner). Trainers wear black uniforms and are framed from the chest down only, so their faces and mouths are never visible. A large soft red ball lies on the turf. Soft natural daylight, handheld smartphone camera at low dog-eye level, shallow depth of field, ultra-realistic fur, 4K, real-time speed (no slow motion), no text overlay.

Timeline with voice commands (0 - 20 s):
0.0s - The puppy sits behind the red ball, still.
1.0s - Trainer says **"Push!"** + hand points forward -> the puppy nudges the ball forward with its nose.
3.0s - Low tracking shot: the puppy keeps pushing the rolling ball across the turf, no new command.
9.0s - Trainer says **"Stop!"** + open palm toward the puppy -> the puppy stops; the ball rolls a little and stops too.
12.0s - Trainer says **"Push!"** + hand points forward -> one more nose push toward the trainer's boots.
15.5s - Trainer says **"Sit!"** + palm swings up -> the puppy sits beside the ball.
18.0s - Trainer says **"Good boy!"** -> the puppy holds the sit, tail wagging, until 20.0s.

SYNC RULES: one continuous video, exactly 20 seconds. Every command is a single short word spoken by the off-screen trainer in a firm, clear voice together with its hand signal, and the dog starts the matching movement within half a second after the word and finishes it in about one second. The dog never moves before a command and never does any action that was not commanded; between commands it holds still. Only one command at a time, no overlapping speech, no extra dialogue. Light background music stays quiet under the voice.

Prompt 3: Weave the Cones (20 seconds)

A vertical 9:16 video, **exactly 20 seconds long**, realistic footage of an adorable fluffy long-haired German Shepherd puppy (about 4 months old, black-and-tan coat, big upright ears, black tactical harness with a small white text patch) doing obedience training on bright green artificial turf in an outdoor K9 training yard (green hedge wall, red training boxes, chain-link gate with a dog-training banner). Trainers wear black uniforms and are framed from the chest down only, so their faces and mouths are never visible. Four small orange cones stand in a straight line on the turf. Soft natural daylight, handheld smartphone camera at low dog-eye level, shallow depth of field, ultra-realistic fur, 4K, real-time speed (no slow motion), no text overlay.

Timeline with voice commands (0 - 20 s):
0.0s - The puppy sits at the first cone beside the trainer's boots.
1.0s - Trainer says **"Weave!"** + hand guides low -> the puppy weaves in and out between the four cones.
3.0s - Low side shot of the puppy zig-zagging past each cone, ears flapping, no new command.
8.0s - Trainer says **"Back!"** + hand turns back -> the puppy turns and weaves back through the cones.
13.0s - Trainer says **"Sit!"** + palm swings up -> the puppy sits at the trainer's feet.
15.5s - Trainer says **"Down!"** + flat palm pushes down -> the puppy lies down, panting happily.
18.0s - Trainer says **"Good boy!"** -> the puppy holds the down until 20.0s.

SYNC RULES: one continuous video, exactly 20 seconds. Every command is a single short word spoken by the off-screen trainer in a firm, clear voice together with its hand signal, and the dog starts the matching movement within half a second after the word and finishes it in about one second. The dog never moves before a command and never does any action that was not commanded; between commands it holds still. Only one command at a time, no overlapping speech, no extra dialogue. Light background music stays quiet under the voice.

Prompt 4: Paws Up (20 seconds)

A vertical 9:16 video, **exactly 20 seconds long**, realistic footage of an adorable fluffy long-haired German Shepherd puppy (about 4 months old, black-and-tan coat, big upright ears, black tactical harness with a small white text patch) doing obedience training on bright green artificial turf in an outdoor K9 training yard (green hedge wall, red training boxes, chain-link gate with a dog-training banner). Trainers wear black uniforms and are framed from the chest down only, so their faces and mouths are never visible. A low red training box stands on the turf. Soft natural daylight, handheld smartphone camera at low dog-eye level, shallow depth of field, ultra-realistic fur, 4K, real-time speed (no slow motion), no text overlay.

Timeline with voice commands (0 - 20 s):
0.0s - The puppy stands in front of the red box, still.
1.0s - Trainer says **"Paws up!"** + hand taps the box top -> the puppy places both front paws on the box, back legs on the turf.
4.5s - Close-up of the puppy's face over the box edge, ears perked, no command.
8.0s - Trainer says **"Off!"** + hand sweeps to the side -> the puppy steps back down off the box.
11.0s - Trainer says **"Paws up!"** + hand taps the box top -> front paws back up on the box.
14.5s - Trainer says **"Off!"** + hand sweeps to the side -> the puppy steps down.
17.0s - Trainer says **"Sit!"** + palm swings up -> the puppy sits beside the box until 20.0s.

SYNC RULES: one continuous video, exactly 20 seconds. Every command is a single short word spoken by the off-screen trainer in a firm, clear voice together with its hand signal, and the dog starts the matching movement within half a second after the word and finishes it in about one second. The dog never moves before a command and never does any action that was not commanded; between commands it holds still. Only one command at a time, no overlapping speech, no extra dialogue. Light background music stays quiet under the voice.

Prompt 5: Kiss the Hand (20 seconds)

A vertical 9:16 video, **exactly 20 seconds long**, realistic footage of an adorable fluffy long-haired German Shepherd puppy (about 4 months old, black-and-tan coat, big upright ears, black tactical harness with a small white text patch) doing obedience training on bright green artificial turf in an outdoor K9 training yard (green hedge wall, red training boxes, chain-link gate with a dog-training banner). Trainers wear black uniforms and are framed from the chest down only, so their faces and mouths are never visible. Soft natural daylight, handheld smartphone camera at low dog-eye level, shallow depth of field, ultra-realistic fur, 4K, real-time speed (no slow motion), no text overlay.

Timeline with voice commands (0 - 20 s):
0.0s - The puppy sits facing the crouching trainer, still.
1.0s - Trainer says **"Kiss!"** + back of the hand held near its nose -> the puppy licks the trainer's hand twice.
4.5s - Trainer says **"Sit!"** + palm swings up -> the puppy sits back, mouth closed.
7.5s - Close-up of the puppy's sweet face and tongue tip, no command.
11.0s - Trainer says **"Kiss!"** + hand held near its nose -> the puppy gives the hand one more lick.
14.5s - Trainer says **"Down!"** + flat palm pushes down -> the puppy lies down.
17.5s - Trainer says **"Good boy!"** + hand strokes its back -> the puppy rolls slightly onto one hip, relaxed, until 20.0s.

SYNC RULES: one continuous video, exactly 20 seconds. Every command is a single short word spoken by the off-screen trainer in a firm, clear voice together with its hand signal, and the dog starts the matching movement within half a second after the word and finishes it in about one second. The dog never moves before a command and never does any action that was not commanded; between commands it holds still. Only one command at a time, no overlapping speech, no extra dialogue. Light background music stays quiet under the voice.

Prompt 6: Bring the Leash (20 seconds)

A vertical 9:16 video, **exactly 20 seconds long**, realistic footage of an adorable fluffy long-haired German Shepherd puppy (about 4 months old, black-and-tan coat, big upright ears, black tactical harness with a small white text patch) doing obedience training on bright green artificial turf in an outdoor K9 training yard (green hedge wall, red training boxes, chain-link gate with a dog-training banner). Trainers wear black uniforms and are framed from the chest down only, so their faces and mouths are never visible. A black leash lies coiled on the turf a few meters away. Soft natural daylight, handheld smartphone camera at low dog-eye level, shallow depth of field, ultra-realistic fur, 4K, real-time speed (no slow motion), no text overlay.

Timeline with voice commands (0 - 20 s):
0.0s - The puppy sits beside the trainer's boots, still.
1.0s - Trainer says **"Leash!"** + finger points at the leash -> the puppy runs to the leash and picks it up in its mouth.
5.0s - Trainer says **"Bring!"** + trainer pats his leg -> the puppy trots back with the leash trailing behind it.
9.0s - Trainer says **"Sit!"** + palm swings up -> the puppy sits in front of the trainer holding the leash.
12.0s - Trainer says **"Give!"** + open palm under its chin -> the puppy releases the leash into the hand.
15.0s - The trainer clips the leash to the harness; the puppy wags its tail, no command.
18.0s - Trainer says **"Good boy!"** -> the puppy stays sitting, looking up, until 20.0s.

SYNC RULES: one continuous video, exactly 20 seconds. Every command is a single short word spoken by the off-screen trainer in a firm, clear voice together with its hand signal, and the dog starts the matching movement within half a second after the word and finishes it in about one second. The dog never moves before a command and never does any action that was not commanded; between commands it holds still. Only one command at a time, no overlapping speech, no extra dialogue. Light background music stays quiet under the voice.

Prompt 7: Hold the Dumbbell (20 seconds)

A vertical 9:16 video, **exactly 20 seconds long**, realistic footage of an adorable fluffy long-haired German Shepherd puppy (about 4 months old, black-and-tan coat, big upright ears, black tactical harness with a small white text patch) doing obedience training on bright green artificial turf in an outdoor K9 training yard (green hedge wall, red training boxes, chain-link gate with a dog-training banner). Trainers wear black uniforms and are framed from the chest down only, so their faces and mouths are never visible. The trainer holds a small wooden obedience dumbbell. Soft natural daylight, handheld smartphone camera at low dog-eye level, shallow depth of field, ultra-realistic fur, 4K, real-time speed (no slow motion), no text overlay.

Timeline with voice commands (0 - 20 s):
0.0s - The puppy sits facing the trainer, still.
1.0s - Trainer says **"Hold!"** + dumbbell offered at its mouth -> the puppy takes the dumbbell and holds it gently in its mouth.
3.0s - Close-up: the puppy holds the dumbbell perfectly still, eyes on the trainer, no command.
10.0s - Trainer says **"Down!"** + flat palm pushes down -> the puppy lies down, still holding the dumbbell.
13.5s - Trainer says **"Sit!"** + palm swings up -> the puppy sits up, dumbbell still in its mouth.
16.5s - Trainer says **"Give!"** + open palm under its chin -> the puppy releases the dumbbell into the hand.
18.5s - Trainer says **"Good!"** -> the puppy stays sitting until 20.0s.

SYNC RULES: one continuous video, exactly 20 seconds. Every command is a single short word spoken by the off-screen trainer in a firm, clear voice together with its hand signal, and the dog starts the matching movement within half a second after the word and finishes it in about one second. The dog never moves before a command and never does any action that was not commanded; between commands it holds still. Only one command at a time, no overlapping speech, no extra dialogue. Light background music stays quiet under the voice.

Prompt 8: Wait at the Gate (20 seconds)

A vertical 9:16 video, **exactly 20 seconds long**, realistic footage of an adorable fluffy long-haired German Shepherd puppy (about 4 months old, black-and-tan coat, big upright ears, black tactical harness with a small white text patch) doing obedience training on bright green artificial turf in an outdoor K9 training yard (green hedge wall, red training boxes, chain-link gate with a dog-training banner). Trainers wear black uniforms and are framed from the chest down only, so their faces and mouths are never visible. The chain-link gate of the yard is closed in front of the puppy. Soft natural daylight, handheld smartphone camera at low dog-eye level, shallow depth of field, ultra-realistic fur, 4K, real-time speed (no slow motion), no text overlay.

Timeline with voice commands (0 - 20 s):
0.0s - The puppy sits beside the trainer in front of the closed gate.
1.0s - Trainer says **"Wait!"** + open palm toward the puppy -> the puppy holds the sit completely still.
2.0s - The trainer swings the gate wide open; the puppy stays seated, eyes on the trainer, no command.
8.0s - Close-up of the puppy's focused face with the open gate behind it.
12.0s - Trainer says **"Okay!"** + arm sweeps through the gate -> the puppy walks calmly through the open gate.
15.5s - Trainer says **"Sit!"** + palm swings up -> on the other side the puppy turns and sits.
18.0s - Trainer says **"Good boy!"** -> the puppy holds the sit until 20.0s.

SYNC RULES: one continuous video, exactly 20 seconds. Every command is a single short word spoken by the off-screen trainer in a firm, clear voice together with its hand signal, and the dog starts the matching movement within half a second after the word and finishes it in about one second. The dog never moves before a command and never does any action that was not commanded; between commands it holds still. Only one command at a time, no overlapping speech, no extra dialogue. Light background music stays quiet under the voice.

Prompt 9: Triplet Puppies in Sync (20 seconds)

A vertical 9:16 video, **exactly 20 seconds long**, realistic footage of three identical fluffy long-haired German Shepherd puppies (about 4 months old, black-and-tan coats, matching black tactical harnesses) doing obedience training on bright green artificial turf in an outdoor K9 training yard (green hedge wall, red training boxes, chain-link gate with a dog-training banner). Trainers wear black uniforms and are framed from the chest down only, so their faces and mouths are never visible. The three puppies sit in a straight row. Soft natural daylight, handheld smartphone camera at low dog-eye level, shallow depth of field, ultra-realistic fur, 4K, real-time speed (no slow motion), no text overlay.

Timeline with voice commands (0 - 20 s):
0.0s - All three puppies sit in a row facing the trainer, still.
1.0s - Trainer says **"Down!"** + flat palm pushes down -> all three lie down at the same moment.
4.5s - Trainer says **"Sit!"** + palm swings up -> all three sit up together.
8.0s - Slow pan across the three fluffy faces, silent, no command.
11.5s - Trainer says **"Down!"** + flat palm pushes down -> wide shot, all three drop down together.
14.5s - Trainer says **"Up!"** + hand lifts high -> all three rise into a beg pose at the same time.
17.5s - Trainer says **"Good!"** -> all three hold the beg pose until 20.0s.

SYNC RULES: one continuous video, exactly 20 seconds. Every command is a single short word spoken by the off-screen trainer in a firm, clear voice together with its hand signal, and the dog starts the matching movement within half a second after the word and finishes it in about one second. The dog never moves before a command and never does any action that was not commanded; between commands it holds still. Only one command at a time, no overlapping speech, no extra dialogue. Light background music stays quiet under the voice.

Prompt 10: Adult Over and Back (20 seconds)

A vertical 9:16 video, **exactly 20 seconds long**, realistic footage of a strong adult male German Shepherd (black-and-tan saddle coat, upright ears, black tactical harness) doing obedience training on bright green artificial turf in an outdoor K9 training yard (green hedge wall, red training boxes, chain-link gate with a dog-training banner). Trainers wear black uniforms and are framed from the chest down only, so their faces and mouths are never visible. A white wooden obedience hurdle stands in the middle of the turf. Soft natural daylight, handheld smartphone camera at low dog-eye level, shallow depth of field, ultra-realistic fur, 4K, real-time speed (no slow motion), no text overlay.

Timeline with voice commands (0 - 20 s):
0.0s - The dog sits at the handler's left leg facing the hurdle, still.
1.0s - Trainer says **"Over!"** + arm points at the hurdle -> the dog runs and clears the hurdle in one powerful jump.
4.5s - Trainer says **"Sit!"** + palm up -> on the far side the dog turns and sits.
7.5s - Trainer says **"Back!"** + hand pulls toward the handler -> the dog jumps back over the hurdle toward the handler.
11.0s - Close-up of the dog landing on the turf, muscles rippling, no command.
14.0s - Trainer says **"Heel!"** + hand taps the left thigh -> the dog swings into heel position at the handler's left leg and sits.
17.5s - Trainer says **"Good!"** -> the dog holds the sit, looking up, until 20.0s.

SYNC RULES: one continuous video, exactly 20 seconds. Every command is a single short word spoken by the off-screen trainer in a firm, clear voice together with its hand signal, and the dog starts the matching movement within half a second after the word and finishes it in about one second. The dog never moves before a command and never does any action that was not commanded; between commands it holds still. Only one command at a time, no overlapping speech, no extra dialogue. Light background music stays quiet under the voice.
