Monday Morning With Her

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A real Monday start with the dog: she wakes the owner, waits through the coffee, watches the work shoes go on, does a quick block walk and settles on the mat for the day.

TIMELINE

0-5s	Paw on the bed
5-10s	Waiting for coffee
10-15s	Watching the shoes
15-20s	Quick block walk
20-25s	Settling on the mat

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. 0-5s (Paw on the bed): Bedroom on a Monday morning, pale grey daylight through half-closed blinds, rumpled white duvet. Owner's point of view from the pillow. The dog stands beside the bed, rests her chin on the mattress and stares, then lifts one front paw onto the duvet and gently paws at the owner's arm until a sleepy hand reaches out to scratch her ears. Sound: quiet room, a soft whine, duvet rustling, owner mumbles "five more minutes". 5-10s (Waiting for coffee): Small kitchen, cool morning window light, grey laminate counter with a drip coffee maker and a white mug. Camera is held low near the counter. The dog sits on the beige tile floor right behind the owner's bare feet, watching the counter, ears forward, then lies down with a heavy sigh when nothing interesting happens. Sound: coffee maker gurgling, a long dog sigh, fridge humming. 10-15s (Watching the shoes): Narrow hallway by the front door, overcast morning light from a small side window, a pile of sneakers and a black work bag on the floor. The owner sits on the bottom stair pulling on sneakers. The dog sits close in front, head tilted, following each shoe with her eyes, tail sweeping the floor slowly. Sound: shoe soles scuffing, tail thumping on the floor, owner says "yes, we are going". 15-20s (Quick block walk): Quiet suburban sidewalk on a cool Monday morning, flat overcast daylight, parked cars along the curb, damp leaves in the gutter. Camera follows from behind at owner height. The dog walks ahead on a loose black leash, sniffing a lamppost base, then trots on with her tail relaxed and swinging. Sound: footsteps, distant car passing, birds, leash clip jingling. 20-25s (Settling on the mat): Back inside by the front door, soft morning light through the frosted door panel, a worn brown doormat. The owner's hand unclips the leash. The dog walks two steps to her grey bed in the corner, circles once and lies down, chin on her paws, watching the owner pick up the bag. Sound: leash clip click, bed cushion creaking, owner says "be good, I will be back".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Paw on the bed

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. Bedroom on a Monday morning, pale grey daylight through half-closed blinds, rumpled white duvet. Owner's point of view from the pillow. FACEBOOK CAPTION

Monday mood: she gets the bed, I get the commute.
Who else gets the guilt look at the door?

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
