Tuesday Errands Together

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A Tuesday of small errands with the dog riding along: loading into the car, a drive-thru window, a pet store aisle, waiting at the curb outside the post office, and home again.

TIMELINE

0-5s	Hopping in
5-10s	Drive-thru window
10-15s	Pet store aisle
15-20s	Waiting at the curb
20-25s	Home again

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. 0-5s (Hopping in): Driveway on a mild Tuesday late morning, bright overcast daylight, a grey hatchback with the rear door open and a dark blanket over the back seat. The owner's hand pats the seat. The dog hops in with one smooth jump, turns around, sits down and looks back at the camera, panting lightly. Sound: car door creak, paws thumping on the seat, owner says "good jump". 5-10s (Drive-thru window): Inside the parked car at a coffee drive-thru, plain daylight, grey fabric interior. Camera from the driver's seat looking back. The dog sits on the back seat and sticks her head forward between the front seats, nose twitching toward the open driver window, ears up, watching a paper cup being passed in. Sound: idling engine, muffled voice from the window, sniffing, owner says "not for you". 10-15s (Pet store aisle): Pet store aisle with plain bright overhead lights, grey concrete floor, shelves of plain colorful bags out of focus. The dog walks beside the owner's legs on a short leash, stops to sniff a low shelf of chew toys, then looks up at the camera with ears forward and walks on. Sound: store hum, quiet background chatter, claws clicking on concrete. 15-20s (Waiting at the curb): Outside a small brick post office, overcast midday light, a bench and a bike rack on the sidewalk. Camera held by a family member standing with her. The dog sits on the sidewalk on a leash, staring at the glass door, then stands up and wags as the owner walks out carrying a small cardboard box. Sound: street traffic, door opening, tail swishing, a happy little whine. 20-25s (Home again): Back home in the entryway, afternoon window light, wooden floor, shopping bags set down by the door. The dog walks in first, goes straight to a paper bag, pushes her nose inside and sniffs loudly, tail wagging, while the owner's hand gently moves the bag away. Sound: paper bag crinkling, loud sniffing, owner laughs "it is your food, relax".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Hopping in

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. Driveway on a mild Tuesday late morning, bright overcast daylight, a grey hatchback with the rear door open and a dark blanket over the back seat. The owner's hand pats the seat. The dog hops in with one smooth jump, turns around, sits down and looks back at the camera, panting lightly. Sound: car door creak, paws thumping on the seat, owner says "good jump".

Clip 2 | 5-10s | Drive-thru window

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
