Midweek Rainy Walk

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A wet Wednesday walk: the raincoat goes on, a puddle sniff, rain on the sidewalk, a hedge shelter pause and the big towel at home.

TIMELINE

0-5s	Raincoat on
5-10s	Puddle sniff
10-15s	Walking in rain
15-20s	Hedge shelter
20-25s	Towel time

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. 0-5s (Raincoat on): Entryway on a rainy Wednesday, dim grey daylight through the front door window, wet umbrellas leaning by a shoe rack. The owner's hands pull a simple yellow dog raincoat over the dog's back and fasten the belly strap. The dog stands still, ears slightly back, then gives a small body wiggle. Sound: rain tapping on the door, velcro rip, owner says "I know, I know". 5-10s (Puddle sniff): Residential sidewalk in steady light rain, flat grey daylight, wet dark asphalt, small puddles along the curb. The dog walks up to a wide shallow puddle, lowers her nose to sniff the edge, then steps around it carefully on the grass strip instead of walking through. Sound: rain hiss, water dripping, car tires on wet road, owner chuckles. 10-15s (Walking in rain): Same street, steady rain, grey overcast light, rows of small houses with wet roofs. Camera at owner height under an umbrella edge. The dog trots ahead on a leash in her yellow raincoat, her black head and ears wet and shiny, blinking at the raindrops, tail low but moving. Sound: rain on the umbrella, footsteps splashing, collar tag jingling. 15-20s (Hedge shelter): Under a thick green hedge at the corner of a front yard, light rain, dull grey daylight. The dog stops and stands under the overhanging branches where it is drier, sniffs the dry dirt, then looks up at the camera as if asking to wait there. Sound: rain dripping off leaves, sniffing, owner says "come on, almost home". 20-25s (Towel time): Back in the entryway, warm ceiling light on, rain visible on the door glass, a striped beach towel on the tile floor. The raincoat is off. The owner's hands rub the towel over the dog's wet head and back. She leans into the towel, then steps away and does a full shake. Sound: towel rubbing, water spraying, owner laughs "not on the wall".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Raincoat on

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. Entryway on a rainy Wednesday, dim grey daylight through the front door window, wet umbrellas leaning by a shoe rack. The owner's hands pull a simple yellow dog raincoat over the dog's back and fasten the belly strap. The dog stands still, ears slightly back, then gives a small body wiggle. Sound: rain tapping on the door, velcro rip, owner says "I know, I know".

Clip 2 | 5-10s | Puddle sniff

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
