Our 6 AM Wake-Up

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

The 6 AM routine before the sun is fully up: she hears the alarm, stretches, waits at the back door, sniffs the dewy yard and watches the sky turn lighter.

TIMELINE

0-5s	Hears the alarm
5-10s	Morning stretch
10-15s	Back door wait
15-20s	Dewy yard sniff
20-25s	Watching the sky

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. 0-5s (Hears the alarm): Dark bedroom at 6 AM, only faint blue light at the window edges, a phone on the nightstand lying face down and buzzing. The dog lifts her head from her floor bed at the foot of the bed, ears snapping up toward the sound. Sound: phone buzzing on wood, blanket shifting, a single tail thump. 5-10s (Morning stretch): Same bedroom, the bedside lamp now on with warm low light, carpet floor. The dog stands up from her bed, pushes her front legs far forward in a long bow stretch, then stretches her back legs out one at a time and yawns wide. Sound: a squeaky yawn, collar tag jingling, owner groans "morning". 10-15s (Back door wait): Kitchen at dawn, dim grey-blue light through the back door glass, one under-cabinet light on. The dog sits right in front of the back door, nose almost touching the glass, glancing back over her shoulder at the camera. Her breath fogs a tiny spot on the cold glass. Sound: quiet kitchen, fridge hum, a soft whine. 15-20s (Dewy yard sniff): Small backyard just after dawn, cool pale light, grass wet with dew, wooden fence dark from moisture. The dog walks slowly along the fence line, nose down, her paws leaving dark tracks in the wet grass. She lifts her head once to listen to a bird on the fence. Sound: birds starting to sing, sniffing, distant car. 20-25s (Watching the sky): Back patio steps, early morning, the sky turning pale pink and grey over the neighbor's roof, cool soft light. The dog sits next to the owner's slippers, looking out over the yard, ears moving at bird sounds, breathing calmly. A mug of coffee steams on the step beside them. Sound: birds chirping, coffee sip, owner says quietly "our time".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Hears the alarm

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
