Lunch Break Walk

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A work-from-home lunch break walk: she spots the laptop closing, rushes to the door, walks to the corner park, sniffs a bench and heads back for her own midday water.

TIMELINE

0-5s	Laptop closes
5-10s	Door rush
10-15s	Corner park
15-20s	Bench sniff
20-25s	Midday water

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. 0-5s (Laptop closes): Home office corner at midday, bright window daylight, a desk with a closed laptop and a coffee mug. The dog has been lying under the desk and pops her head out as the owner's chair rolls back, ears up, tail starting to thump. Sound: chair wheels rolling, tail thumping on the floor, owner says "lunch?". 5-10s (Door rush): Front hallway, midday light through a side window, coats on hooks, a green leash hanging by the door. The dog trots ahead of the camera to the door and spins once in place, then sits as the owner's hand reaches for the leash. Sound: claws on wooden floor, leash jingling, excited huff. 10-15s (Corner park): Small neighborhood park at noon, bright sunny daylight, short green grass, a few trees and a paved path. The dog walks on a leash along the path, then veers onto the grass to roll briefly on her back, legs in the air. Sound: birds, children far away, grass rustling, owner laughing. 15-20s (Bench sniff): Green metal park bench under a tree, midday dappled sunlight. The dog sniffs carefully along the bottom of the bench legs, then under the seat, tail wagging slowly, while the owner's hand holds the leash loosely. Fallen leaves and a paper cup lid lie in the grass under the bench. Sound: sniffing, leaves rustling, distant traffic. 20-25s (Midday water): Kitchen back home, bright midday light from the window, beige tile floor, a steel water bowl on a mat. The dog drinks in big noisy laps, water splashing on the mat, then lifts her dripping chin and looks at the camera. Sound: loud lapping, water dripping, owner says "back to work for me".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Laptop closes

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. Home office corner at midday, bright window daylight, a desk with a closed laptop and a coffee mug. The dog has been lying under the desk and pops her head out as the owner's chair rolls back, ears up, tail starting to thump. Sound: chair wheels rolling, tail thumping on the floor, owner says "lunch?".

Clip 2 | 5-10s | Door rush

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
