3 PM Snack Time

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

She knows exactly when 3 PM snack time is: staring at the owner, following to the kitchen, waiting by the treat jar, a carrot crunch and licking the floor afterwards.

TIMELINE

0-5s	The stare
5-10s	Kitchen follow
10-15s	Treat jar wait
15-20s	Carrot crunch
20-25s	Floor licking

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. 0-5s (The stare): Living room in mid-afternoon, warm indirect daylight through sheer curtains, a beige couch. Camera from the owner sitting with a book. The dog sits in front of the couch, staring up at the camera, completely still, then lets out one small impatient huff. Sound: quiet room, a soft huff, owner says "is it that time?". 5-10s (Kitchen follow): Hallway leading to the kitchen, afternoon daylight, wooden floor. Camera walks forward at owner height. The dog trots right beside the owner's legs, looking up every two steps, tail swinging, and gets into the kitchen first. Afternoon light falls through a doorway at the end of the hall. Sound: footsteps, claws clicking, collar jingling. 10-15s (Treat jar wait): Kitchen counter, afternoon window light, a plain glass jar with dog biscuits next to a fruit bowl. The dog sits on the tile floor right below the jar, eyes fixed on it, nose working, one front paw lifting off the floor. Sound: jar lid twisting, sniffing, owner says "sit nicely". 15-20s (Carrot crunch): Same kitchen, warm afternoon light. The owner's hand holds out a whole peeled baby carrot. The dog takes it carefully with her front teeth, lies down on the floor and crunches it loudly, pieces dropping between her paws. Her ears stay pricked toward the hand the whole time. Sound: loud crunching, owner laughs, fridge hum. 20-25s (Floor licking): Beige tile kitchen floor, afternoon daylight. The carrot is gone. The dog sniffs and licks the floor all around where she ate, searching for crumbs, then looks up at the camera hopefully. A few orange crumbs are left by the cabinet, and her tail sweeps the tiles slowly. Sound: licking, sniffing, owner says "that was it".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | The stare

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
