Evening Backyard Hour

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

The calm evening hour out back: the porch light comes on, she patrols the fence, sniffs the flower bed, chews a stick on the grass and lies on the patio as it gets dark.

TIMELINE

0-5s	Porch light on
5-10s	Fence patrol
10-15s	Flower bed sniff
15-20s	Stick chew
20-25s	Patio lie down

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. 0-5s (Porch light on): Back door at dusk, the yellow porch light just turned on, sky deep blue, wooden deck boards. The owner opens the screen door. The dog steps out onto the deck, pauses to sniff the air with her nose raised, then walks down the steps. Sound: screen door creak, crickets starting, owner says "go check". 5-10s (Fence patrol): Backyard at dusk, fading blue evening light and the porch light behind, a tall wooden fence. The dog trots along the fence line, stops at a gap between boards and sniffs it carefully, ears forward, tail held level. Her black coat blends into the shadows by the fence. Sound: crickets, distant dog barking, paws on grass. 10-15s (Flower bed sniff): Edge of a small flower bed with marigolds along the fence, early evening, soft fading light. The dog sniffs along the mulch border without stepping in, her nose moving low, then sneezes once. The porch light behind her throws a long faint shadow across the grass. Sound: sniffing, a loud sneeze, owner laughs quietly. 15-20s (Stick chew): Middle of the lawn, evening, last light in the sky and the porch light from the house. The dog lies on the grass holding a thin dry stick between her front paws, chewing on one end and peeling off little bits of bark. Sound: stick cracking, crickets, a neighbor's TV faintly. 20-25s (Patio lie down): Concrete patio by the back door, almost dark, warm yellow porch light, a plastic chair. The dog lies flat on the cool concrete next to the chair legs, head up, watching the dark yard and listening, ears turning. Moths flutter around the yellow lamp above the door. Sound: crickets, a car far away, slow breathing.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Porch light on

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. Back door at dusk, the yellow porch light just turned on, sky deep blue, wooden deck boards. The owner opens the screen door. The dog steps out onto the deck, pauses to sniff the air with her nose raised, then walks down the steps. Sound: screen door creak, crickets starting, owner says "go check".

Clip 2 | 5-10s | Fence patrol

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
