## MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. 0-5s (Off the couch): Living room at night, one table lamp on, warm low light, TV off. The dog is lying on the couch. The owner stands and pats a leg. She slowly stretches, steps down onto the rug and yawns. A folded blanket slips off the couch cushion behind her. Sound: quiet room, a yawn, owner says "last one, come on". 5-10s (Door wait): Kitchen at night, only the stove hood light on, dark window over the sink. The dog stands at the back door, nose to the frame, tail moving slowly as the owner's hand unlocks the deadbolt. Her nails click on the tile as she shifts her weight from paw to paw. Sound: lock clicking, fridge humming, tag jingling. 10-15s (Night yard sniff): Backyard at night, a single white floodlight on the house lighting part of the lawn, the rest dark. The dog walks slowly across the lit grass, nose down, picking a spot, her black coat hard to see against the dark edges. Sound: crickets, sniffing, owner whispers "hurry up". 15-20s (Rushing back): Back steps at night under the floodlight, cool air, the open door showing the warm kitchen inside. The dog trots back across the grass and hops up the two steps straight past the owner's legs into the house. Cool night air drifts in through the doorway. Sound: paws on steps, door closing, owner says "good girl". 20-25s (Bedtime biscuit): Kitchen at night, stove light only, beige tile floor. The owner's hand holds out a small bone-shaped dog biscuit. The dog sits, takes it gently and carries it toward the hallway and her bed. Her tail swings slowly as she walks out of the warm kitchen light. Sound: a crunch, claws fading down the hallway, light switch click.

## CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

#### HOW TO MAKE IT LOOK REAL

| | |
|---|---|
| **Use a real photo** | Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips. |
| **Muse AI: one video** | Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts. |
| **Pick the most natural** | Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face. |
| **Keep the real sound** | Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath. |
| **No filters** | Do not add filters, slow motion or fancy transitions - real home videos don't have them. |
