Daily Paw Check After the Walk

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

The paw check after every walk: wiping paws at the door, checking between the toes, finding a burr, a quick pad check and a happy release.

TIMELINE

0-5s	Stop at the door
5-10s	Paw wipe
10-15s	Toe check
15-20s	Finding a burr
20-25s	Released

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. 0-5s (Stop at the door): Front entryway after a walk, late morning overcast light from the open door, a rough brown doormat and a folded old towel. The dog stops on the mat and stands waiting, panting lightly, one muddy front paw slightly lifted. Leaves cling to the fur on her legs. Sound: door closing, panting, owner says "paws first". 5-10s (Paw wipe): Same entryway, overcast daylight, tile floor. The owner crouches and wipes the dog's front paw with the damp towel, then the other one. She stands still, looking away patiently. Bits of dried mud fall onto the doormat, and her tail swings slowly while she waits for the next paw to be cleaned. Sound: towel rubbing, slow breathing, keys dropped on a table. 10-15s (Toe check): Entryway, daylight through the door glass. The owner's fingers gently spread the toes of one front paw to look between the pads. The dog glances down at the hand, then licks the owner's wrist once. Her black fur is slightly damp from the walk and dusty on the legs. Sound: quiet, a small lick, owner says "thank you". 15-20s (Finding a burr): Entryway, overcast daylight, close view of the dog's black back paw resting in the owner's palm. A small brown burr is stuck in the fur near the pad. The owner's fingers pull it out carefully. She stays relaxed. The owner's other hand rests on her hip. Sound: owner says "got it", a soft tail thump. 20-25s (Released): Hallway leading into the house, soft daylight, wooden floor. The owner lets go of the paw and says okay. The dog trots off down the hallway with a light bounce, tail high, toward the kitchen. A pair of sneakers lies by the wall, and the towel stays behind on the mat. Sound: claws on wood, tag jingling, owner says "okay, go".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Stop at the door

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. Front entryway after a walk, late morning overcast light from the open door, a rough brown doormat and a folded old towel. The dog stops on the mat and stands waiting, panting lightly, one muddy front paw slightly lifted. Leaves cling to the fur on her legs. Sound: door closing, panting, owner says "paws first".

Clip 2 | 5-10s | Paw wipe

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
