Feeding Time Countdown

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

The last few minutes before dinner: pacing, staring at the cupboard, the scoop sound, a polite wait and gobbling it down.

TIMELINE

0-5s	Pacing
5-10s	Cupboard stare
10-15s	Scoop sound
15-20s	Polite wait
20-25s	Gobbling

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. 0-5s (Pacing): Kitchen in the early evening, warm overhead light and fading daylight at the window, beige tile floor. The dog walks back and forth between the hallway and the kitchen, glancing at the owner each time she passes. A pot sits on the stove behind the owner. Sound: claws clicking, owner laughs "still ten minutes". 5-10s (Cupboard stare): Same kitchen, warm evening light, a lower wooden cupboard door. The dog sits directly in front of the closed cupboard and stares at it without moving, nose twitching, ears forward. A dish towel hangs from the cupboard handle, and the owner's socked feet are visible at the edge of the frame as she waits. Sound: fridge humming, quiet sniffing. 10-15s (Scoop sound): Kitchen, evening light. The cupboard is open, and the owner's hand scoops dry kibble from a plastic bin with a red scoop. The dog stands up and does a small excited spin on the tiles. A few kibble pieces bounce off the scoop onto the floor and she sniffs at them. Sound: kibble rattling, claws skidding, an excited huff. 15-20s (Polite wait): Kitchen floor, warm evening light, a steel bowl full of kibble set on a mat. The dog sits a step back from the bowl, trembling slightly, eyes going between the bowl and the camera, drool at her lip. Her front paws shift on the tiles. Sound: owner says "wait... wait...", a tiny whine. 20-25s (Gobbling): Same spot, evening kitchen light. The owner says okay. The dog dives into the bowl and eats fast, pushing the bowl a few inches across the mat, kibble pieces scattering on the tiles. Her collar tag clinks against the steel rim as she chases the last pieces around the bowl. Sound: loud crunching, bowl scraping, owner says "okay!".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Pacing

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
