Her Daily Nap Schedule

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Her nap spots through the day: the sunny rug in the morning, under the desk at noon, the cool bathroom tile in the afternoon, the couch in the evening and her bed at night.

TIMELINE

0-5s	Morning sun nap
5-10s	Under the desk
10-15s	Cool tile nap
15-20s	Couch evening nap
20-25s	Bedtime curl

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. 0-5s (Morning sun nap): Living room at 9 AM, a bright square of sunlight on a beige rug. The dog lies stretched on her side right inside the sunny patch, eyes closed, her black coat looking slightly brown in the sun. Dust floats in the sunbeam above her side. Sound: birds outside, slow breathing, a soft snore. 5-10s (Under the desk): Home office at midday, plain daylight from the window, a desk with a chair pushed back. The dog is curled up under the desk between the owner's feet, chin on one paw, eyes half open. A cable runs along the wall and her tail lies across the owner's slipper. Sound: keyboard typing, a deep sigh. 10-15s (Cool tile nap): Small bathroom in the afternoon, soft daylight from a frosted window, white tile floor and a bathmat. The dog lies flat on the cool tiles next to the bathtub, legs stretched out, belly to the floor. A folded towel hangs over the edge of the tub above her. Sound: quiet, a faucet drip, slow breathing. 15-20s (Couch evening nap): Living room in the evening, warm table lamp light, grey couch with a throw. The dog is asleep on her back on the couch, legs folded in the air, head tilted to the side. A knitted throw slides halfway off her belly as she twitches one back leg in her sleep. Sound: TV murmur, soft snoring, owner whispers "look at her". 20-25s (Bedtime curl): Bedroom at night, dim warm bedside lamp light, a round grey dog bed on the carpet. The dog circles twice and curls into a tight ball, tucks her nose under her tail, and the lamp clicks off leaving a faint hallway light. Sound: bed creaking, a long sigh, lamp switch click.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Morning sun nap

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
