Daily Mail Time

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

The daily mail moment: she hears the mail truck, alerts at the window, walks to the mailbox with the owner, sniffs the envelopes and gets a cardboard box to sniff.

TIMELINE

0-5s	Hears the truck
5-10s	Window alert
10-15s	Mailbox walk
15-20s	Envelope sniff
20-25s	Box inspection

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. 0-5s (Hears the truck): Living room in late morning, bright overcast daylight, a beige couch under the front window. The dog lifts her head from the rug, ears snapping toward the window, then gets up quickly. She trots past the coffee table toward the window, nails clicking on the wooden floor and tail held high. Sound: engine rumble outside, brakes squeaking, tag jingle. 5-10s (Window alert): Front window, overcast late morning light, sheer curtain pushed aside. The dog stands with front paws on the couch back looking out at the street, giving one low woof, tail stiffly wagging. A small white van drives away down the quiet street, and she watches it until it is gone. Sound: one deep woof, truck driving off, owner says "it is just the mail". 10-15s (Mailbox walk): Front yard path, overcast daylight, short grass and a black metal mailbox on a post by the street. The dog walks beside the owner's legs on a leash down the path toward the mailbox, sniffing the grass edge. Overcast clouds hang low over the houses across the street. Sound: footsteps on concrete, birds, distant traffic. 15-20s (Envelope sniff): By the mailbox, overcast daylight. The owner's hand holds a few plain envelopes turned with the blank sides showing. The dog stretches her neck to sniff them thoroughly, nose working, ears back slightly. Her tail wags slowly, and the open mailbox door hangs down beside the owner's arm in flat grey light. Sound: paper rustling, sniffing, owner says "anything good?". 20-25s (Box inspection): Entryway inside, plain daylight from the front door, tile floor. A small plain cardboard box sits on the floor. The dog sniffs every side of it, then nudges it with her nose so it slides a little. A pair of shoes sits beside the box on the tile. Sound: cardboard scraping, sniffing, owner laughs "not yours this time".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Hears the truck

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
