Our Daily Fetch Session

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

The daily fetch session at the field: dropping the ball at the owner's feet, a long chase, the catch, a lie-down to chew and the slow walk back.

TIMELINE

0-5s	Ball drop
5-10s	Long chase
10-15s	The catch
15-20s	Chew break
20-25s	Walk back

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. 0-5s (Ball drop): Open community field in the afternoon, bright partly cloudy daylight, wide short grass and goal posts far in the background. The dog trots up and drops a worn orange rubber ball right at the owner's sneakers, then backs up, crouching. Sound: ball bouncing on grass, panting, owner says "ready?". 5-10s (Long chase): Same field, afternoon daylight. The owner's arm throws the ball far. The dog sprints away across the grass, ears flat, legs stretching, and the camera follows her as she gets smaller in the frame. Clumps of grass fly up behind her back paws as she runs toward the bouncing ball. Sound: wind, paws pounding on grass, owner cheers. 10-15s (The catch): Field, partly cloudy afternoon light. The ball bounces once on the grass. The dog jumps a little and snaps it out of the air, lands, and turns back toward the camera with the ball in her mouth. Her ears flop forward as she lands on the grass. Sound: ball thud, a quick chomp, owner says "nice!". 15-20s (Chew break): Field, afternoon daylight, short grass. Instead of bringing it back, the dog lies down in the grass a few meters away, the ball between her front paws, chewing it and panting hard. She looks up at the camera between chews, tongue hanging out the side, and wags her tail on the grass. Sound: rubber squeaking, panting, owner calls "bring it here". 20-25s (Walk back): Paved path at the edge of the field, late afternoon sun low behind trees, long shadows. The dog walks beside the owner on a leash carrying the ball proudly, tail relaxed, tongue hanging out. The ball is wet with slobber, and her paws are dusty from the field as she walks. Sound: footsteps, panting, birds, owner says "same time tomorrow".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Ball drop

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. Open community field in the afternoon, bright partly cloudy daylight, wide short grass and goal posts far in the background. The dog trots up and drops a worn orange rubber ball right at the owner's sneakers, then backs up, crouching. Sound: ball bouncing on grass, panting, owner says "ready?".

Clip 2 | 5-10s | Long chase

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
