Our Daily Neighborhood Loop

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

The same neighborhood loop every afternoon: the corner lamppost, a friendly neighbor at the gate, the hill, crossing at the corner and the home stretch.

TIMELINE

0-5s	Lamppost sniff
5-10s	Neighbor at gate
10-15s	Up the hill
15-20s	Corner crossing
20-25s	Home stretch

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. 0-5s (Lamppost sniff): Neighborhood sidewalk in the afternoon, mild hazy daylight, a grey metal lamppost at a corner, trimmed hedges behind. The dog stops at the lamppost and sniffs all around the base, taking her time, tail wagging slowly. A few dry leaves blow across the sidewalk as she sniffs, and the leash hangs loose. Sound: sniffing, birds, distant lawnmower, owner says "every day". 5-10s (Neighbor at gate): Front gate of a neighbor's house, afternoon daylight, a white picket fence. An older woman in a cardigan leans over the gate and offers the back of her hand. The dog sniffs it and wags, leaning closer for a scratch. Sound: neighbor says "hello sweetheart", tail wagging, gate creak. 10-15s (Up the hill): Gently sloped residential street in the afternoon, plain daylight, parked cars and small front lawns. Camera from behind at owner height. The dog leans into the walk up the hill on a loose leash, ears bouncing slightly. A mailbox and a basketball hoop pass by on the left. Sound: footsteps, owner breathing harder, leash jingling. 15-20s (Corner crossing): Quiet street corner, afternoon daylight, a curb ramp and painted crosswalk with no cars. The dog sits at the curb next to the owner's legs and waits, looking both ways, then walks across beside the owner. A single bicycle is parked against a fence across the street in the plain light. Sound: owner says "wait" then "okay", footsteps, a bird. 20-25s (Home stretch): Own street in late afternoon, warm soft light, the front walkway of a small house ahead. The dog speeds up into a happy trot as she recognizes the house, tail high, pulling a little toward the door. Her nails click on the concrete walkway as she reaches the steps. Sound: faster footsteps, panting, owner laughs "you know where we are".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Lamppost sniff

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. Neighborhood sidewalk in the afternoon, mild hazy daylight, a grey metal lamppost at a corner, trimmed hedges behind. The dog stops at the lamppost and sniffs all around the base, taking her time, tail wagging slowly. A few dry leaves blow across the sidewalk as she sniffs, and the leash hangs loose. Sound: sniffing, birds, distant lawnmower, owner says "every day".

Clip 2 | 5-10s | Neighbor at gate

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
