Daily Toy Rotation

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

The daily toy swap from the basket: she watches yesterday's toys go away, sniffs the basket, picks a new one, shakes it and settles in to chew.

TIMELINE

0-5s	Toys put away
5-10s	Basket sniff
10-15s	Picks one
15-20s	Toy shake
20-25s	Settled chew

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. 0-5s (Toys put away): Living room in the morning, bright daylight from a large window, wooden floor. The owner's hand picks up a worn rope toy and a squeaky duck from the floor and drops them in a cloth bag. The dog watches closely, head tilting. Sound: toy squeak, cloth bag rustling, owner says "see you next week". 5-10s (Basket sniff): Same room, morning light, a woven wicker basket full of dog toys set on the floor. The dog pushes her head deep into the basket, sniffing and nosing through the toys, tail wagging. A rubber ring and a ball fall out onto the floor as she digs, and she ignores them for now. Sound: toys shuffling, loud sniffing, wicker creaking. 10-15s (Picks one): Living room, bright morning daylight. The dog pulls out a plush green frog by its leg, holds it in her mouth and stands still for a second, looking at the camera with the toy hanging down. Two other toys lie on the floor beside the basket where she dropped them. Sound: a muffled squeak, owner laughs "the frog today". 15-20s (Toy shake): Wooden floor, morning daylight from the window. The dog shakes the plush frog hard side to side, ears flapping, then tosses it a short distance and pounces on it with both front paws. The frog stays in one piece, and her tail wags hard as she grabs it again. Sound: squeaking, paws thumping, collar jingling. 20-25s (Settled chew): Living room rug, soft late morning daylight. The dog lies down with the frog between her front paws, gently mouthing it and squeaking it slowly, eyes half closed and relaxed. The wicker basket sits in the background, and dust floats in the window light while her eyes slowly close and she rests her chin on the toy. Sound: slow squeaks, birds outside, quiet room.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Toys put away

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. Living room in the morning, bright daylight from a large window, wooden floor. The owner's hand picks up a worn rope toy and a squeaky duck from the floor and drops them in a cloth bag. The dog watches closely, head tilting. Sound: toy squeak, cloth bag rustling, owner says "see you next week".

Clip 2 | 5-10s | Basket sniff

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
