End of the Day Cuddle

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

How every day ends: lights going off, she jumps on the bed, gets her ears rubbed, rests her head on the owner's chest and falls asleep.

TIMELINE

0-5s	Lights going off
5-10s	Bed jump
10-15s	Ear rubs
15-20s	Head on chest
20-25s	Falling asleep

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. 0-5s (Lights going off): Hallway at night, the owner's hand switching off a ceiling light, a bedroom door open with a warm bedside lamp on inside. The dog walks down the dim hallway toward the bedroom, tail swaying. A framed picture hangs on the wall at the hallway end, and her nails click softly with each step. Sound: light switch click, claws on wooden floor, owner yawns. 5-10s (Bed jump): Bedroom at night, warm bedside lamp light, a bed with a white duvet and grey pillows. The owner pats the duvet. The dog jumps up onto the bed in one move, turns around twice and lies down beside the owner. Sound: mattress bouncing, a contented groan, owner says "come here". 10-15s (Ear rubs): Same bed, night, warm lamp light, close view. The owner's hand rubs the base of the dog's upright ears slowly. She leans her head into the hand and her eyes slowly close. Her breathing slows, and the duvet folds around her front legs as she sinks deeper into the soft bed. Sound: soft rubbing, slow breathing, owner whispers "long day, huh". 15-20s (Head on chest): Bed at night, owner's point of view lying on the pillow, warm dim lamp light. The dog stretches forward and rests her chin on the owner's chest, her amber-brown eyes looking up, then letting out a deep sigh. The owner's free hand rests on her back. Sound: deep sigh, very quiet room, duvet rustling. 20-25s (Falling asleep): Bedroom, the lamp switched off, only faint blue night light from the window. The dog is a dark shape curled against the owner's side on the duvet, breathing slowly, one ear twitching. The quiet room is still, with only a faint streetlight edge on the curtains as she drifts off to sleep. Sound: slow breathing, quiet snoring, a car passing far away.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
